**Sub: Fee for services for 400+ Specialist Doctors with Uttar Pradesh National Health Mission.**

Dear Dr. Mastan Singh,

Uttar Pradesh National Health Mission (UPNHM) has 400+ service opportunities for **Specialist Doctors**, comprising **Anaesthetists, Gynaecologists and Paediatricians**, at the level of **District and Sub-District Hospitals, Community Health Centres and First Referral Units** across Uttar Pradesh. UPNHM has launched an ambitious drive to fill these requirements through an innovative approach of seeking the bids from the Specialist doctors for services they shall be willing to render. The drive aims to ensure that all government health system delivery points are properly resourced and fully functional with emphasis on **District Hospitals (DHs), Sub-District Hospitals (SDHs) and Community Health Centres (CHCs)**, especially **First Referral Units (FRUs)**.

UPNHM is launching multiple innovative strategies to fulfil this huge mandate. One of such initiatives would be tying up and associating with premier Medical Colleges across the country. UPNHM shall be delighted to consider eligible specialist (graduating students and professional staff) from your esteemed institution.

UPTSU/IHAT through its premiere HR Agency **Strategic Alliance Management Services Pvt. Ltd. (SAMS)** will be supporting UPNHM in this process, to support and execute the complete process and successfully implement this endeavour.

In this context, **SAMS**, along with **UPTSU, IHAT** representatives, shall be visiting premier Medical Colleges including your own, to apprise graduating Specialist Doctors and professional staff of the opportunity to support **UPNHM** and contribute towards strengthening the public health service delivery system of the state. During the visit to your institution, the team will pre-enrol and familiarise graduating doctors with the unique features of this drive, which includes the submission of financial proposal, along with applications. We shall also explore the possibility of a long-term association with your College, to fill future requirement arising with **UPNHM**.

Please share the name and contact particulars, of the concerned person(s) at your institution with the representatives of **SAMS/UPTSU/ IHAT** and they in turn, should liaise for exploring the association with your institution.

I have pleasure in appending a copy of the proposed deliverables that has been posted on the NHM website ([www.upnrhm.gov.in](http://www.upnrhm.gov.in)), for your reference. Please circulate this to graduating students and professional staff, who may have an interest in applying for the positions. I also request you to ensure prominent display of the appended bid notice on your notice board and website.

Yours faithfully,

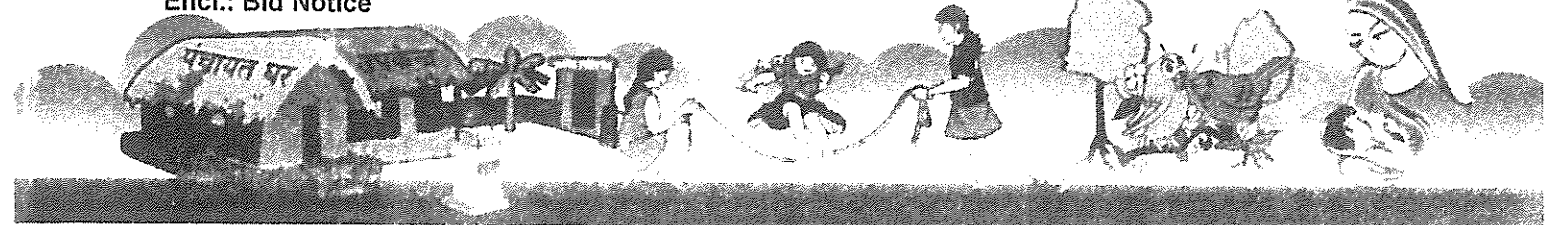

Mission Director,  
National Health Mission, Uttar Pradesh
