Year of Admission

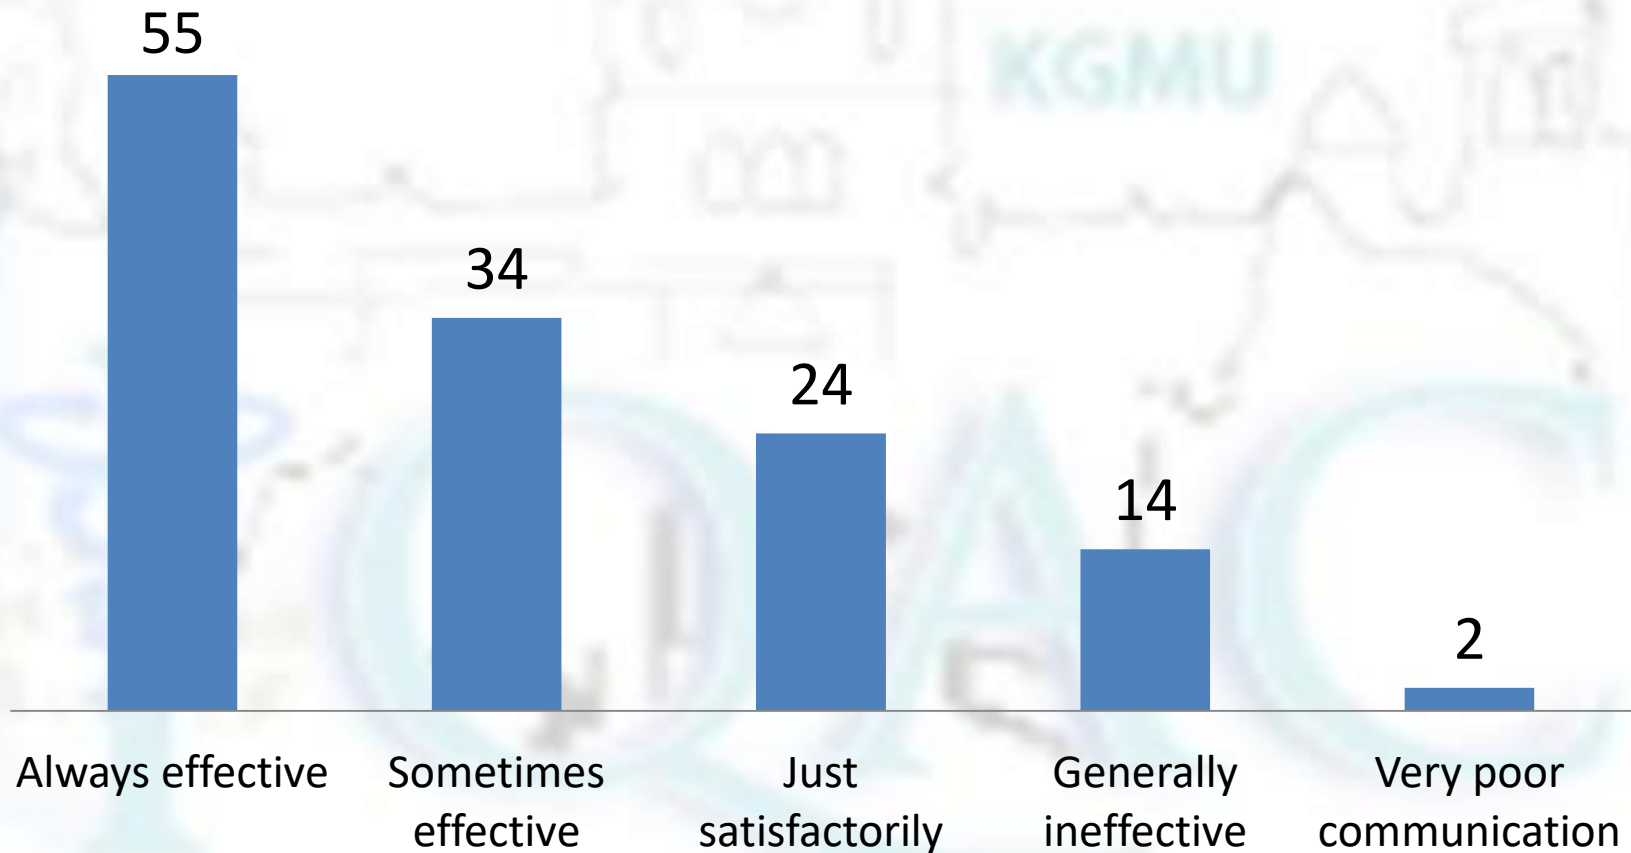

1. How much of the syllabus was covered in the class?

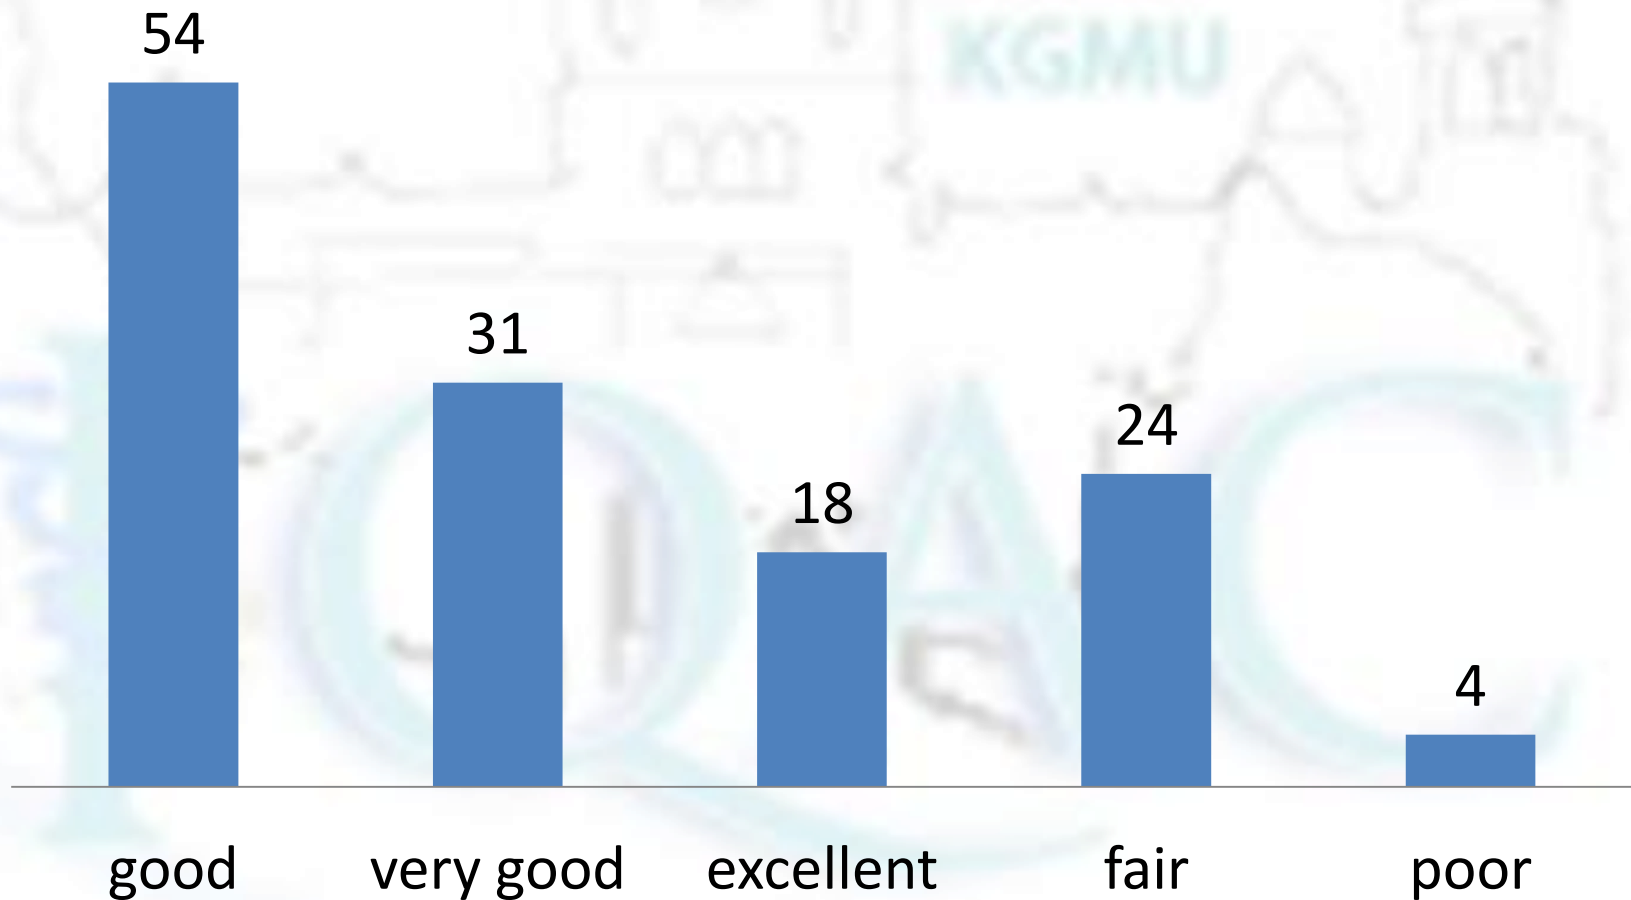

2. How well did the teachers prepare for the classes?

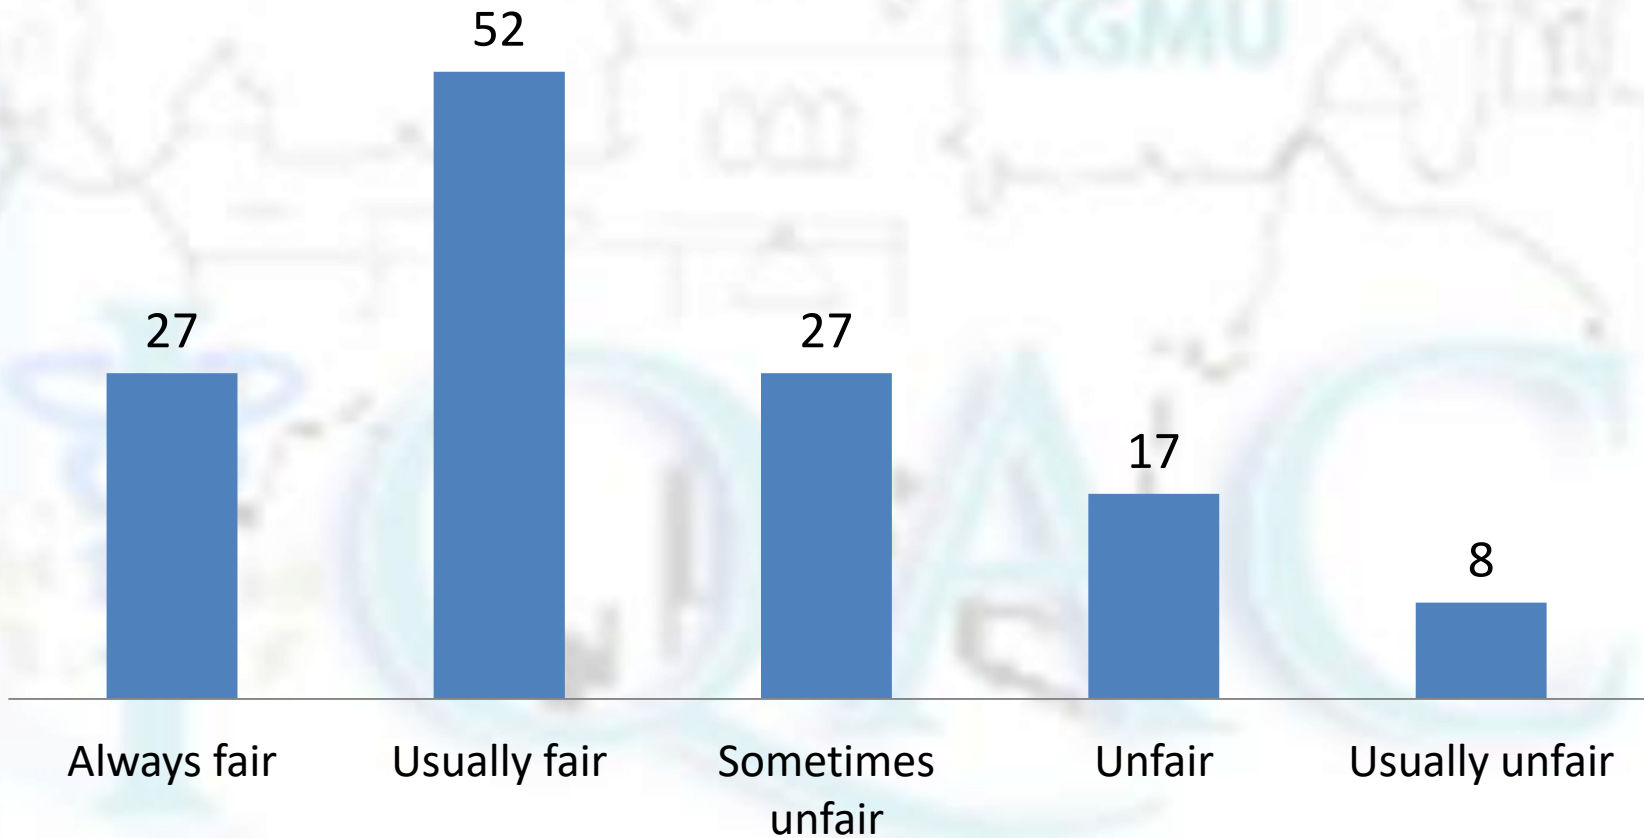

3. How well were the teachers able to communicate?

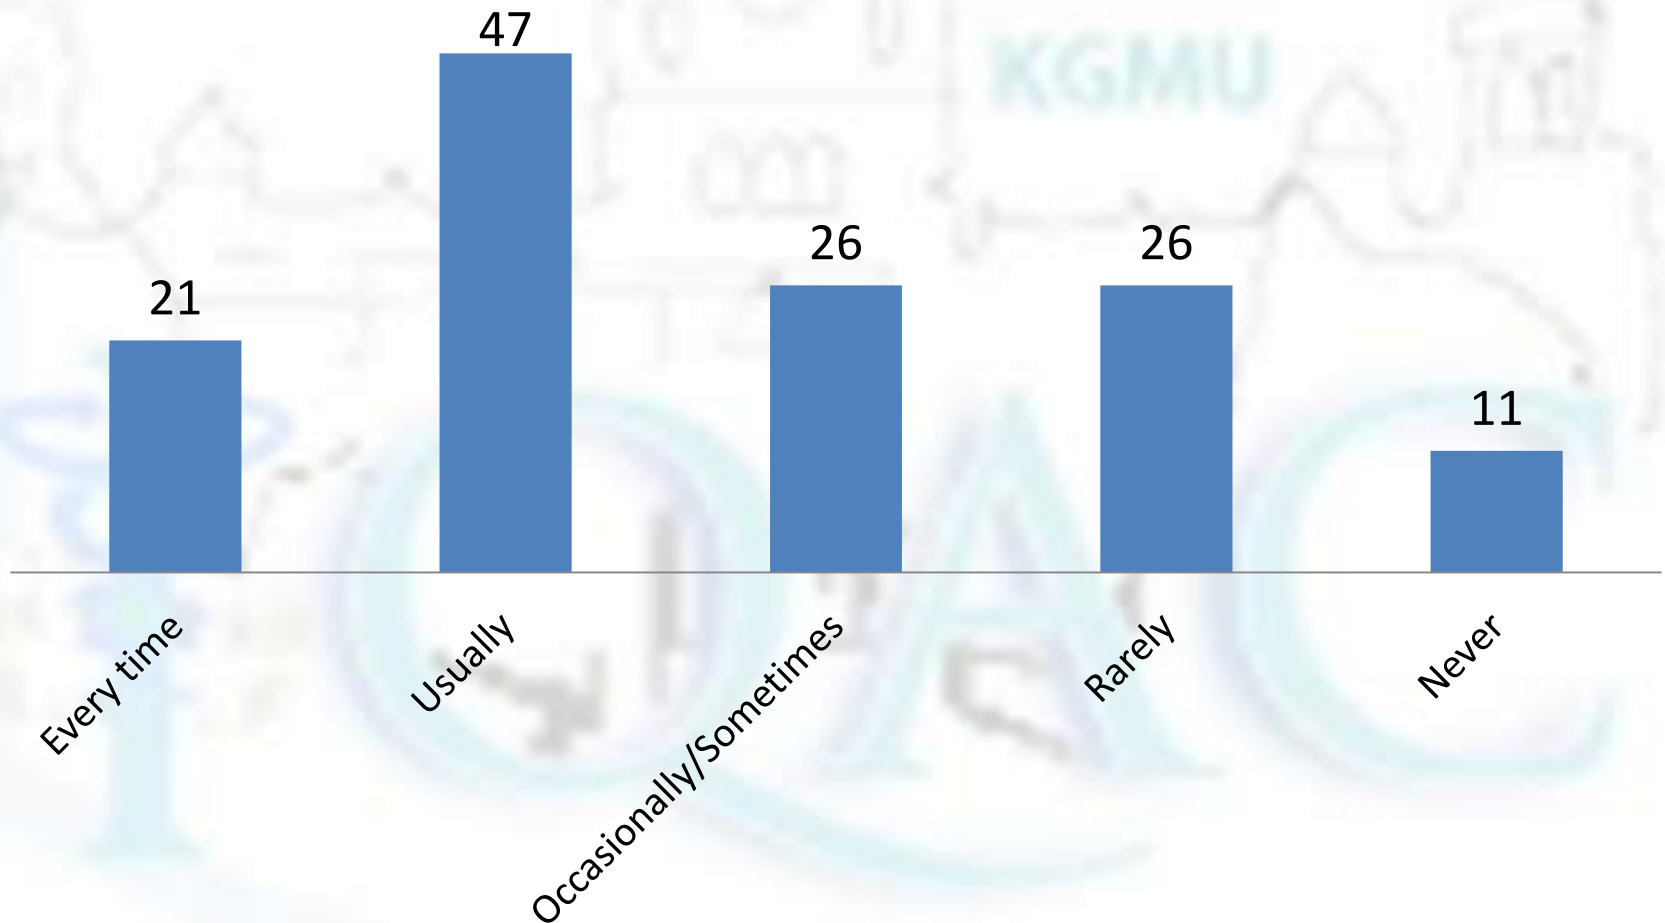

4. The teacher's approach to teaching can best be described as

5. Fairness of the internal evaluation process by the teachers.

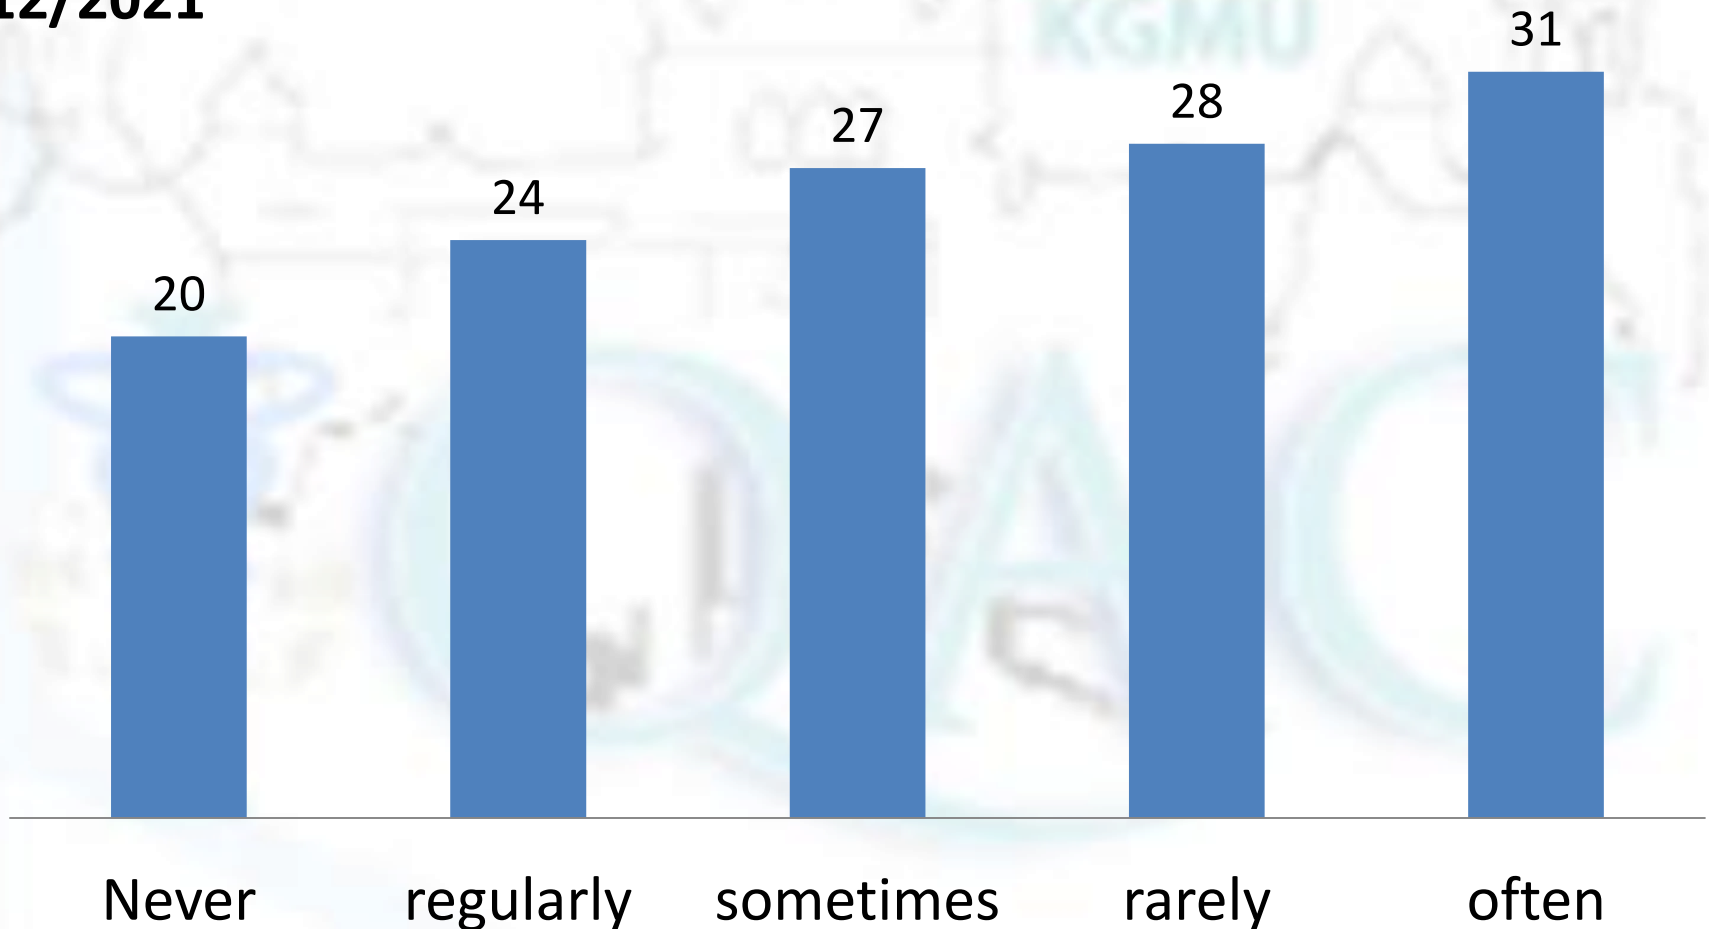

6. Was your performance in assignments discussed with you?

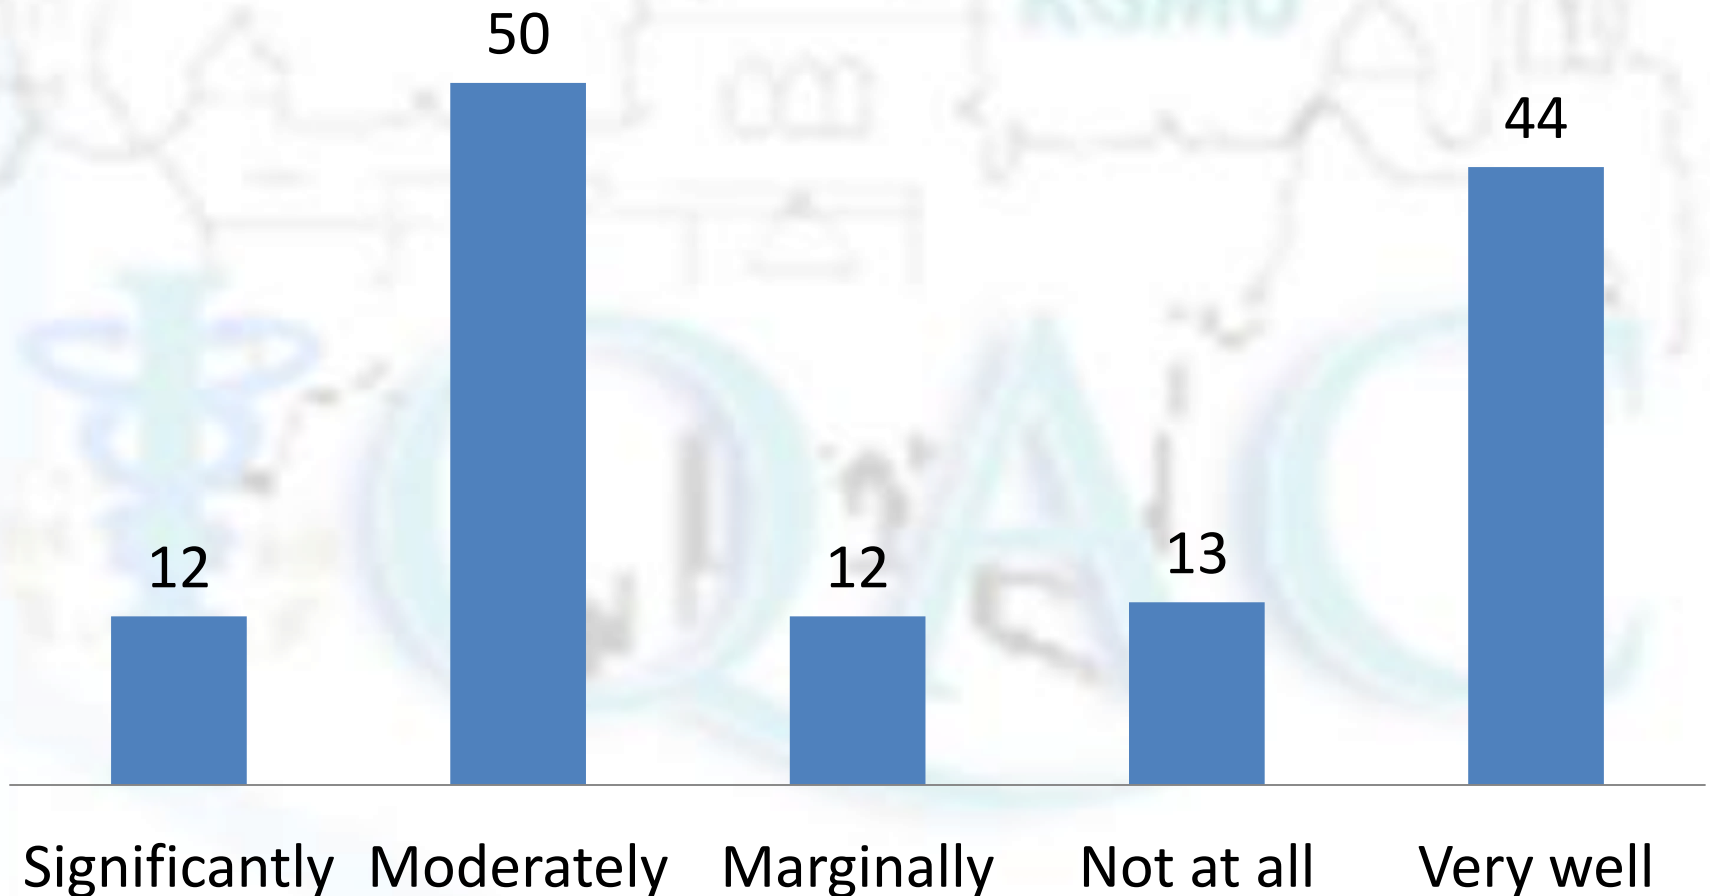

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

12/2021

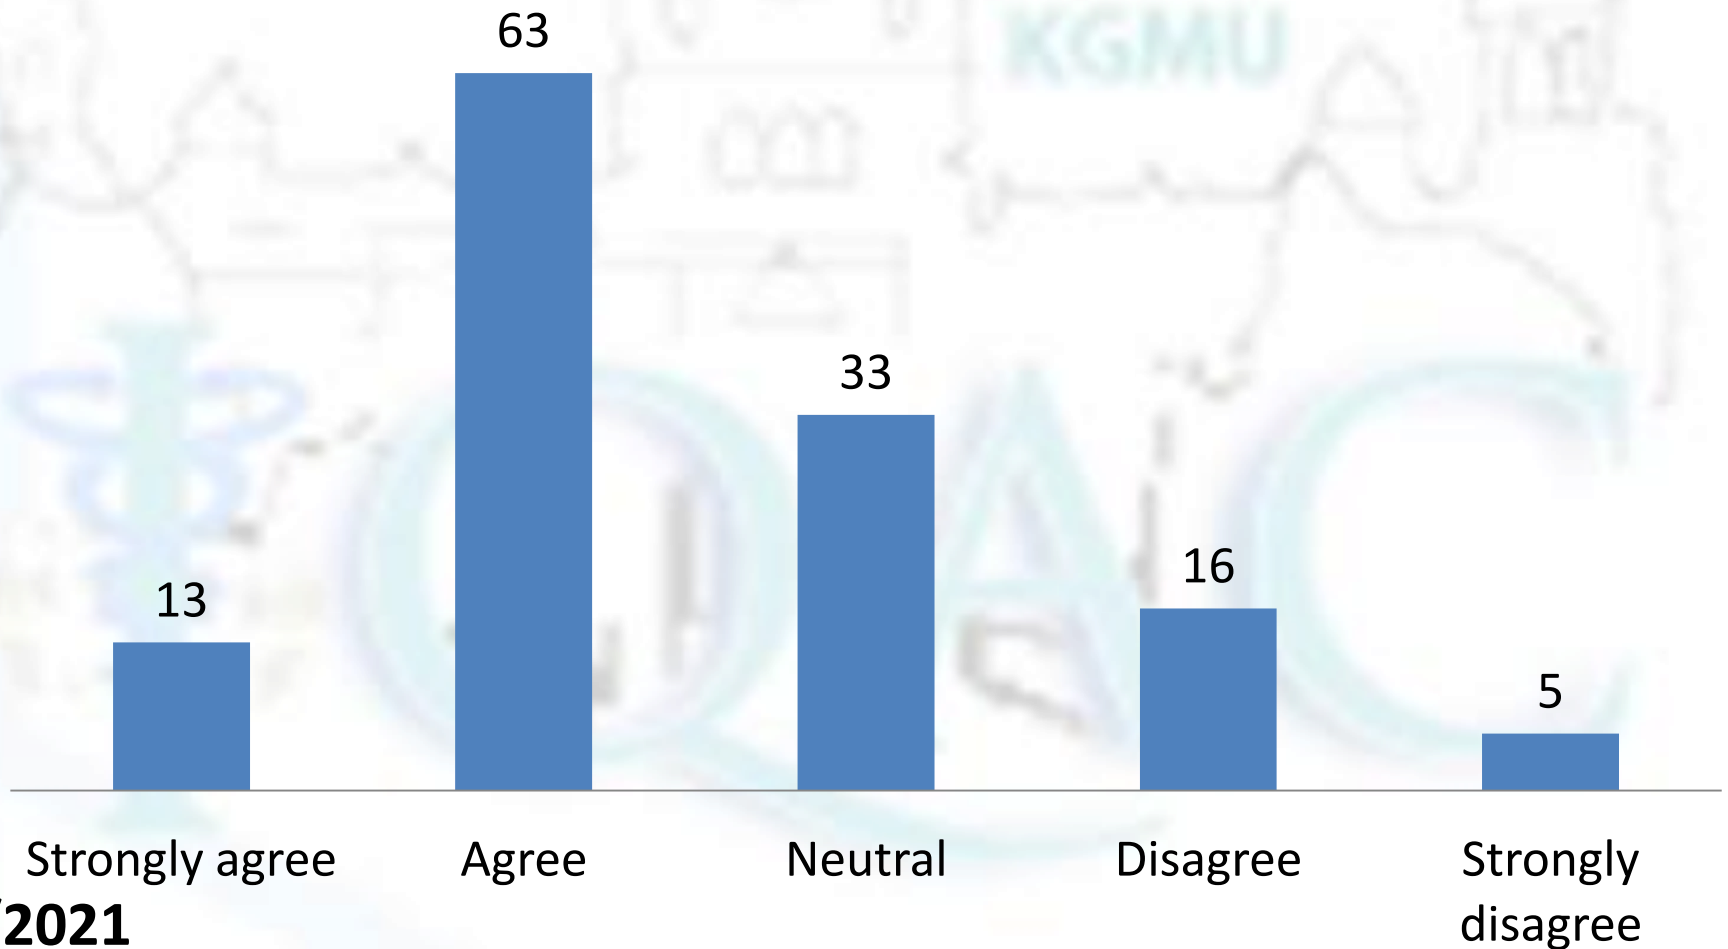

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

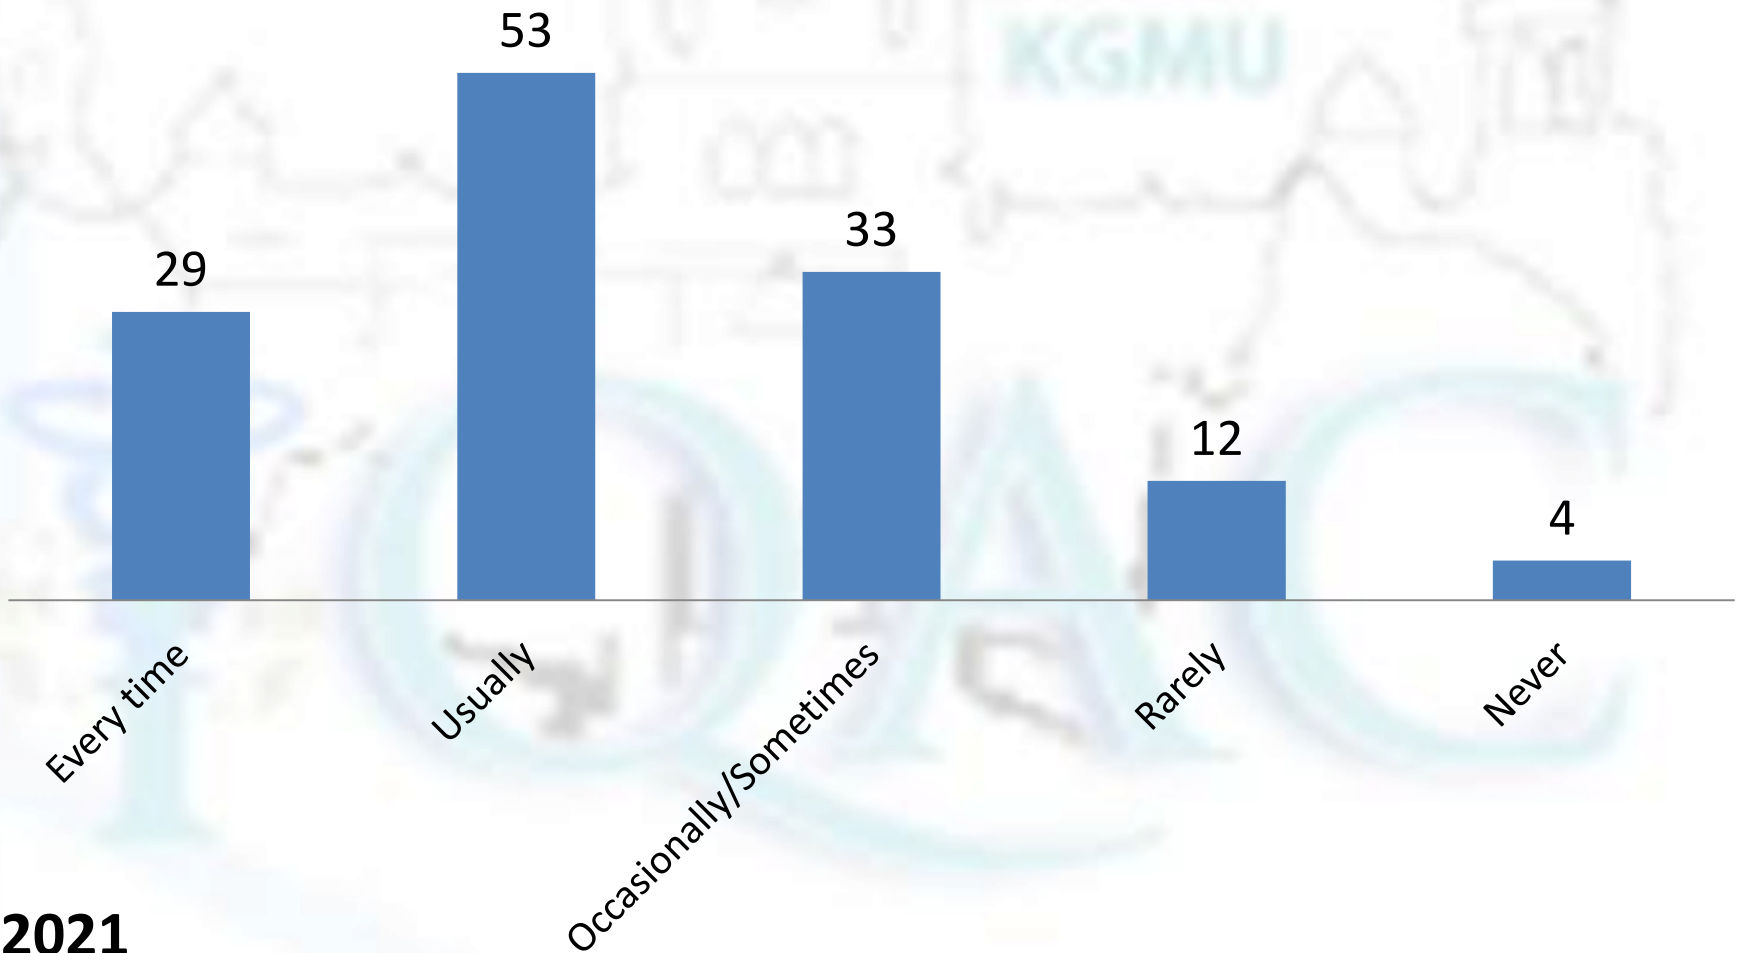

12/2021

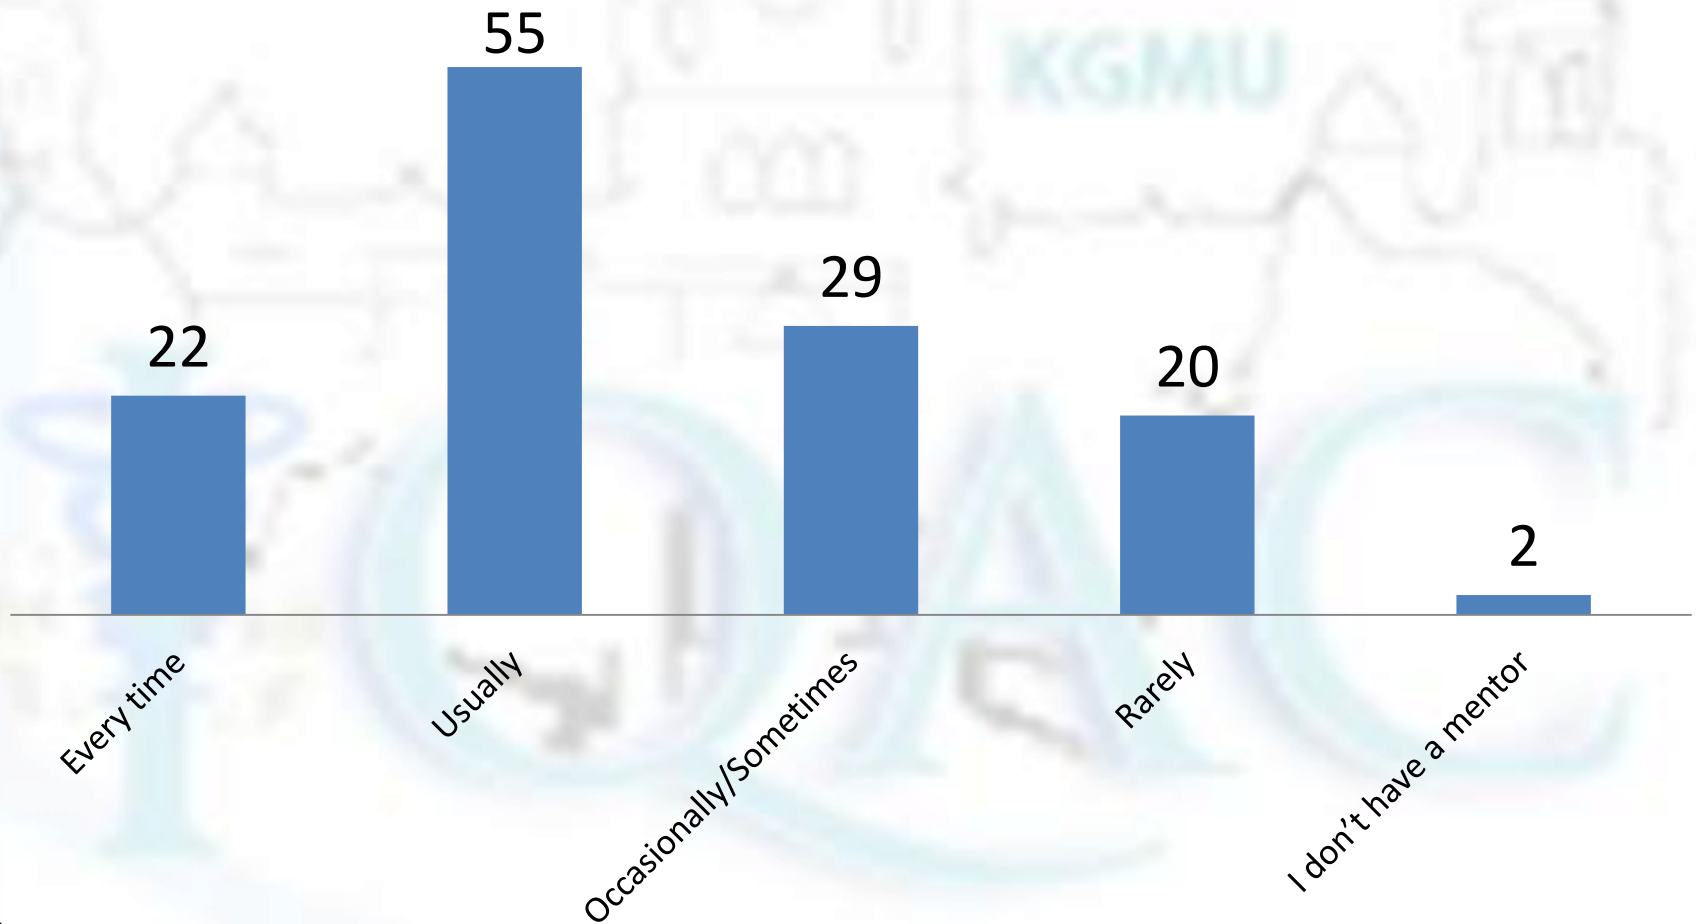

9. The institution provides multiple opportunities to learn and grow.

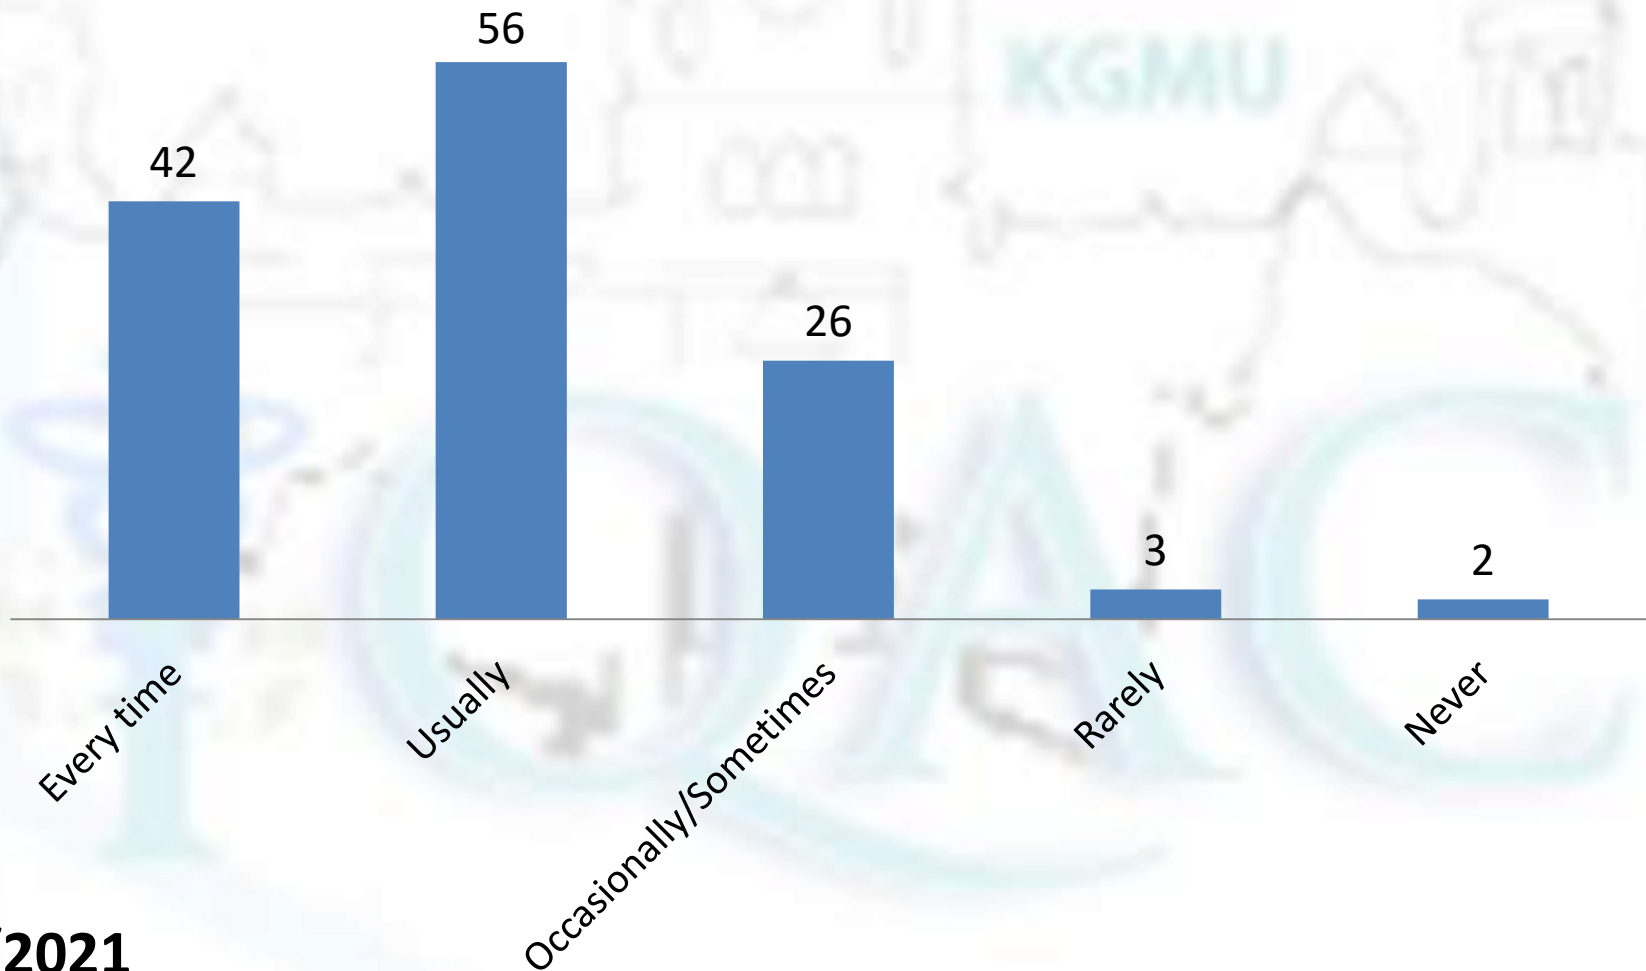

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

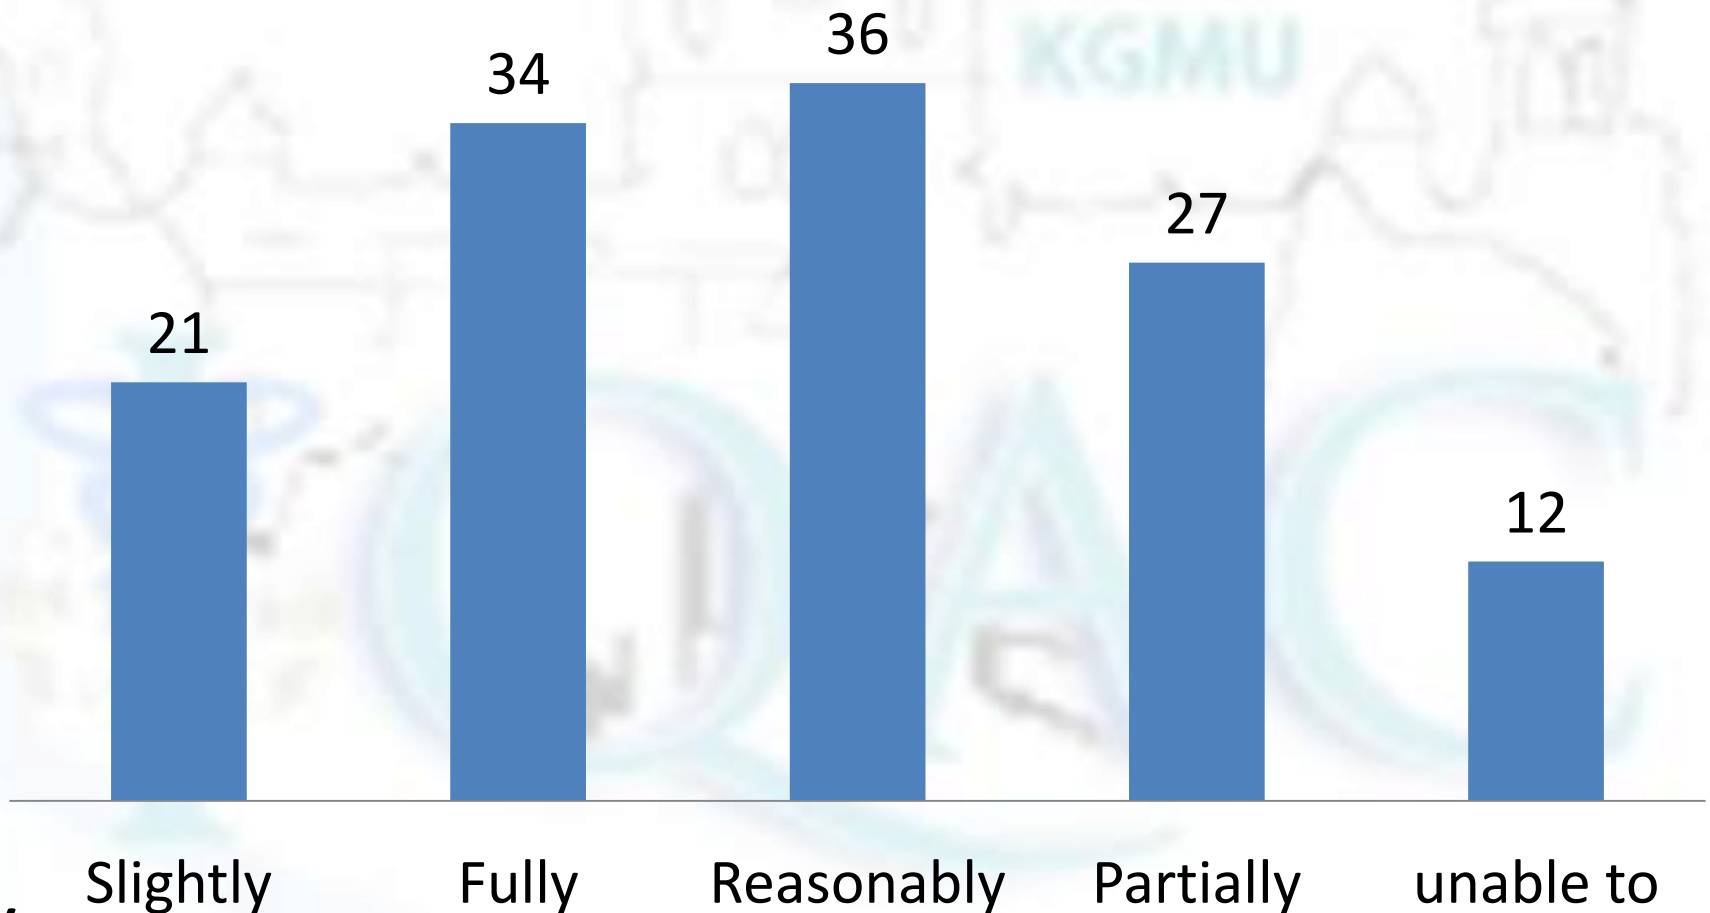

11. Your mentor does a necessary follow-up with an assigned task to you.

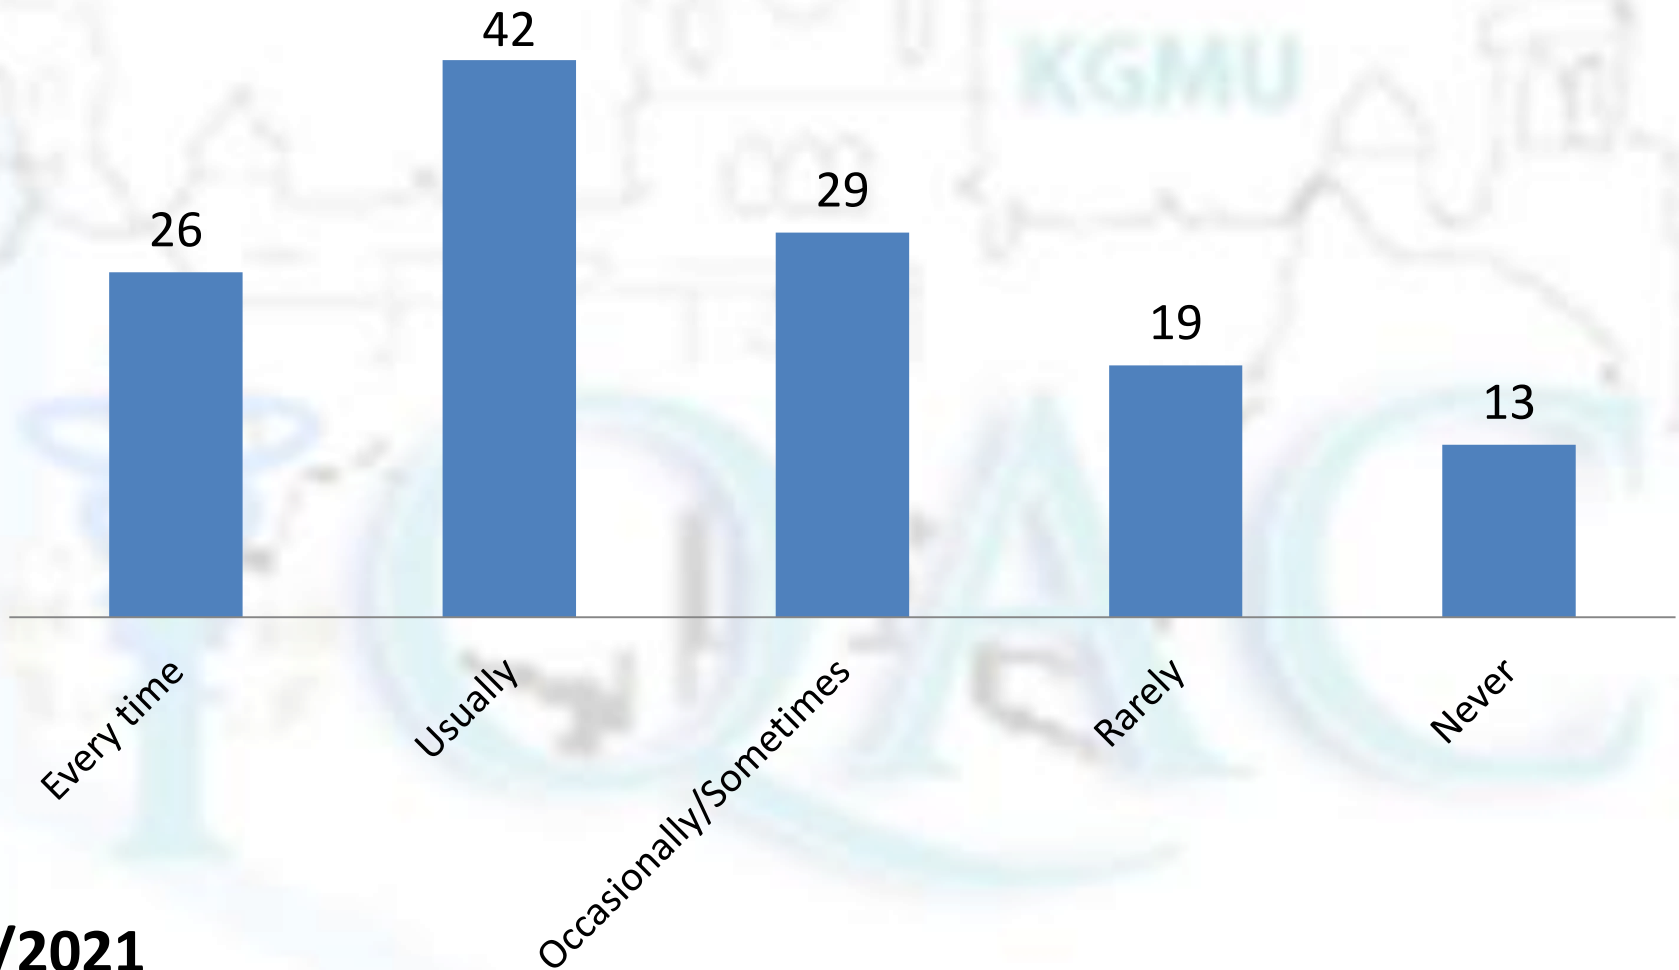

12. The teachers illustrate the concepts through examples and applications.

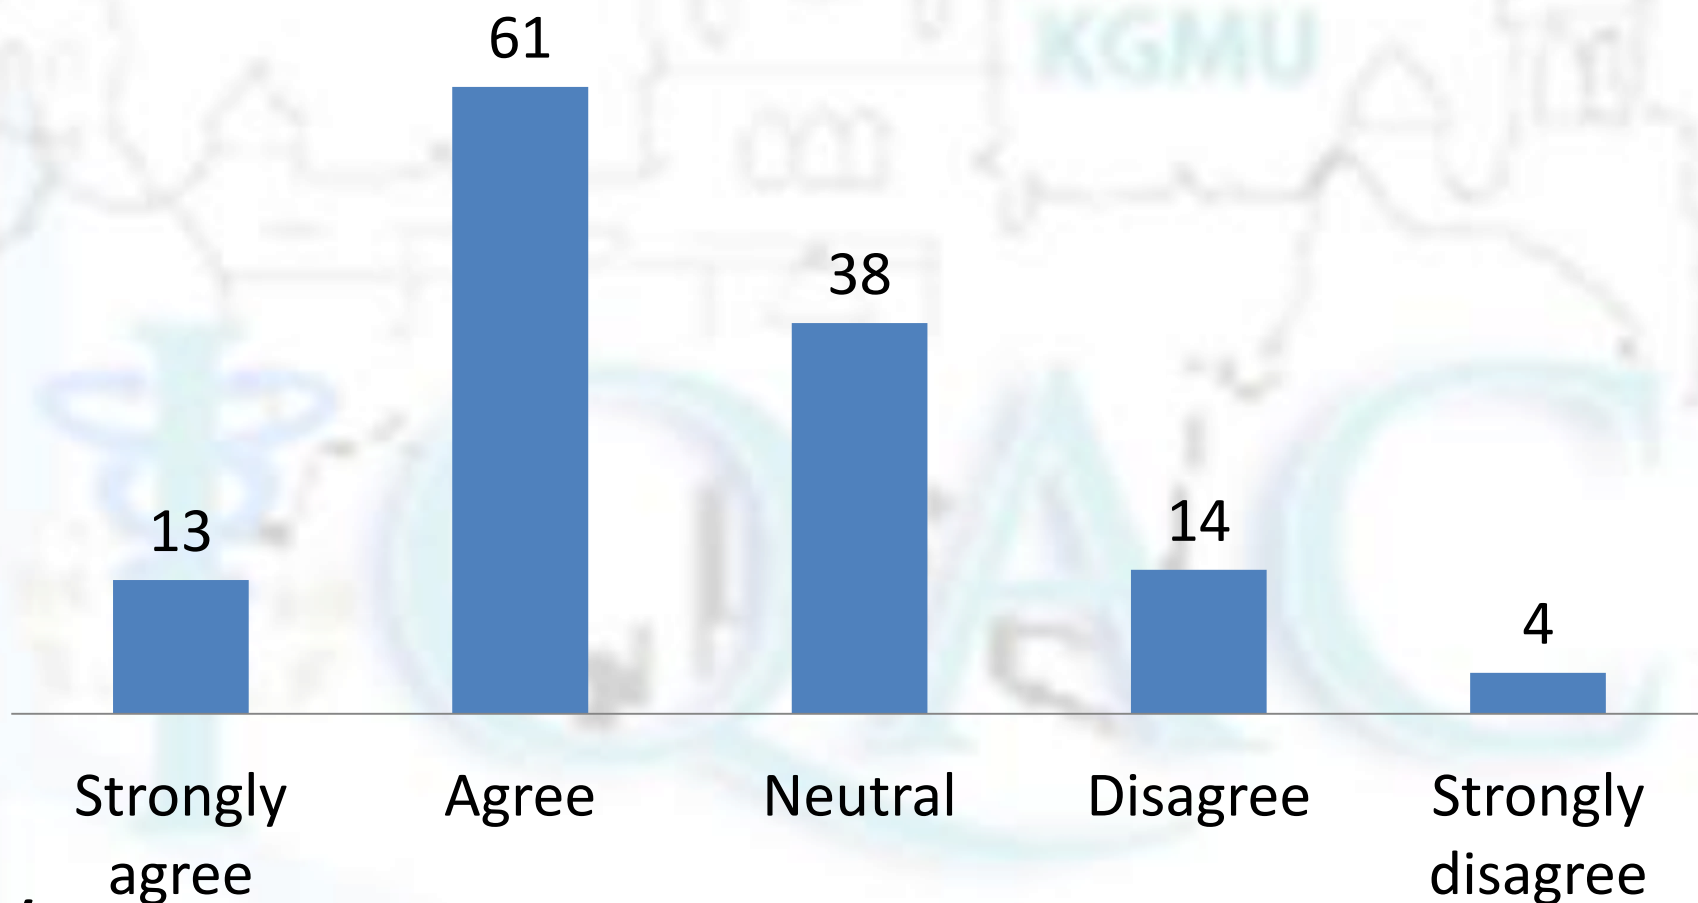

13. The teachers identify your strengths and encourage you with providing right level of challenges.

14. Teachers are able to identify your weaknesses and help you to overcome them.

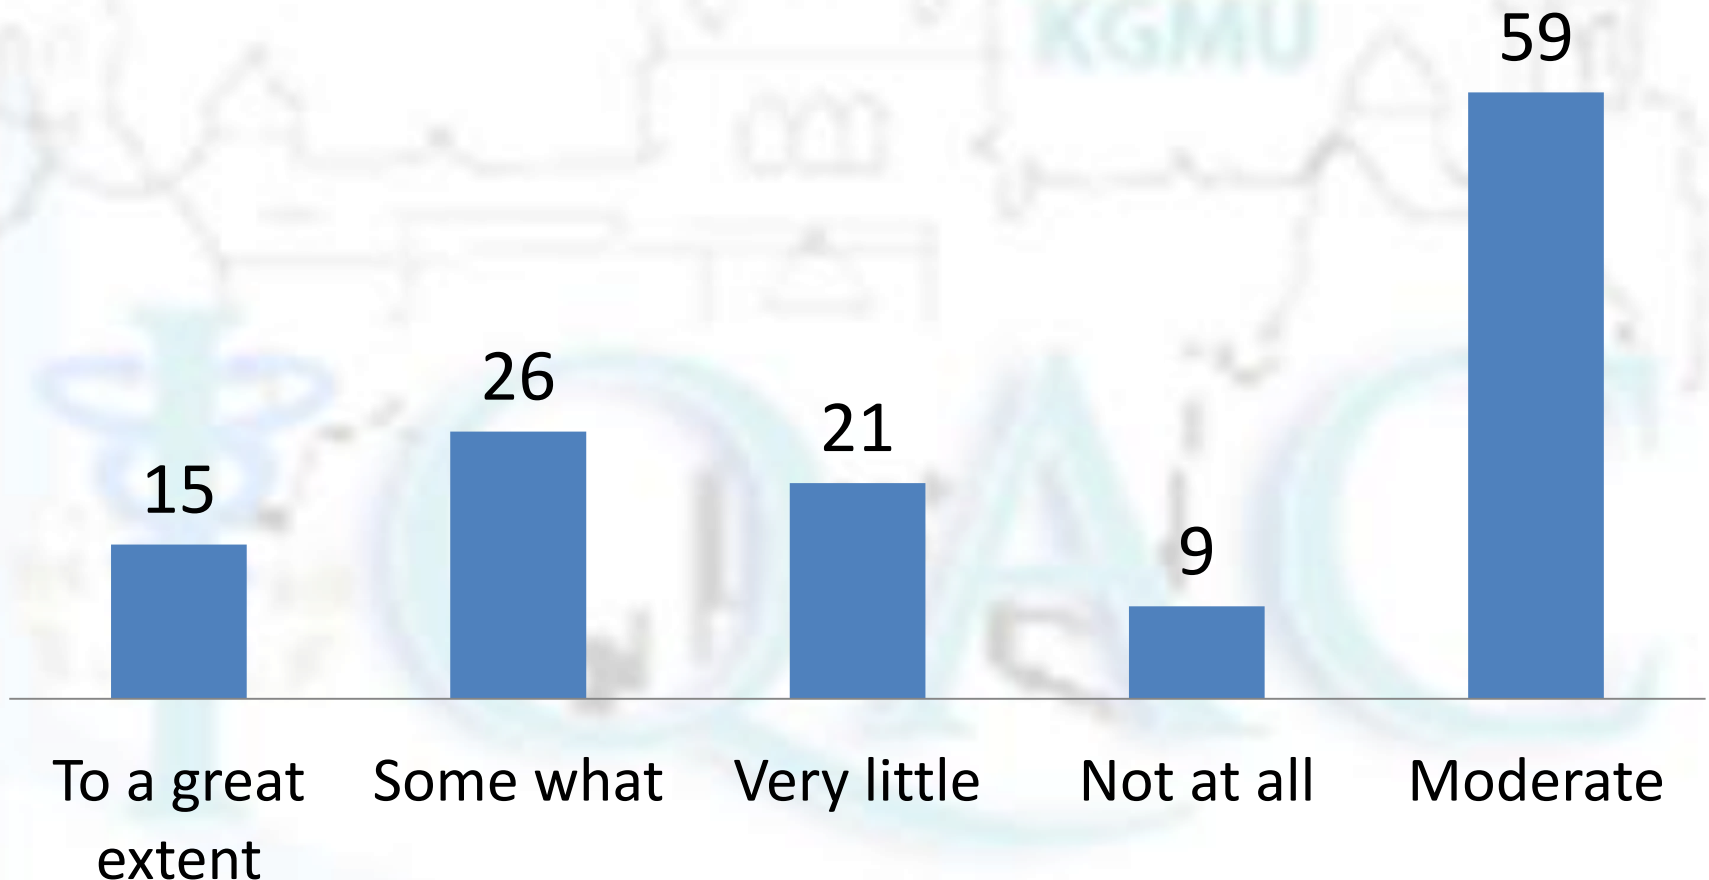

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

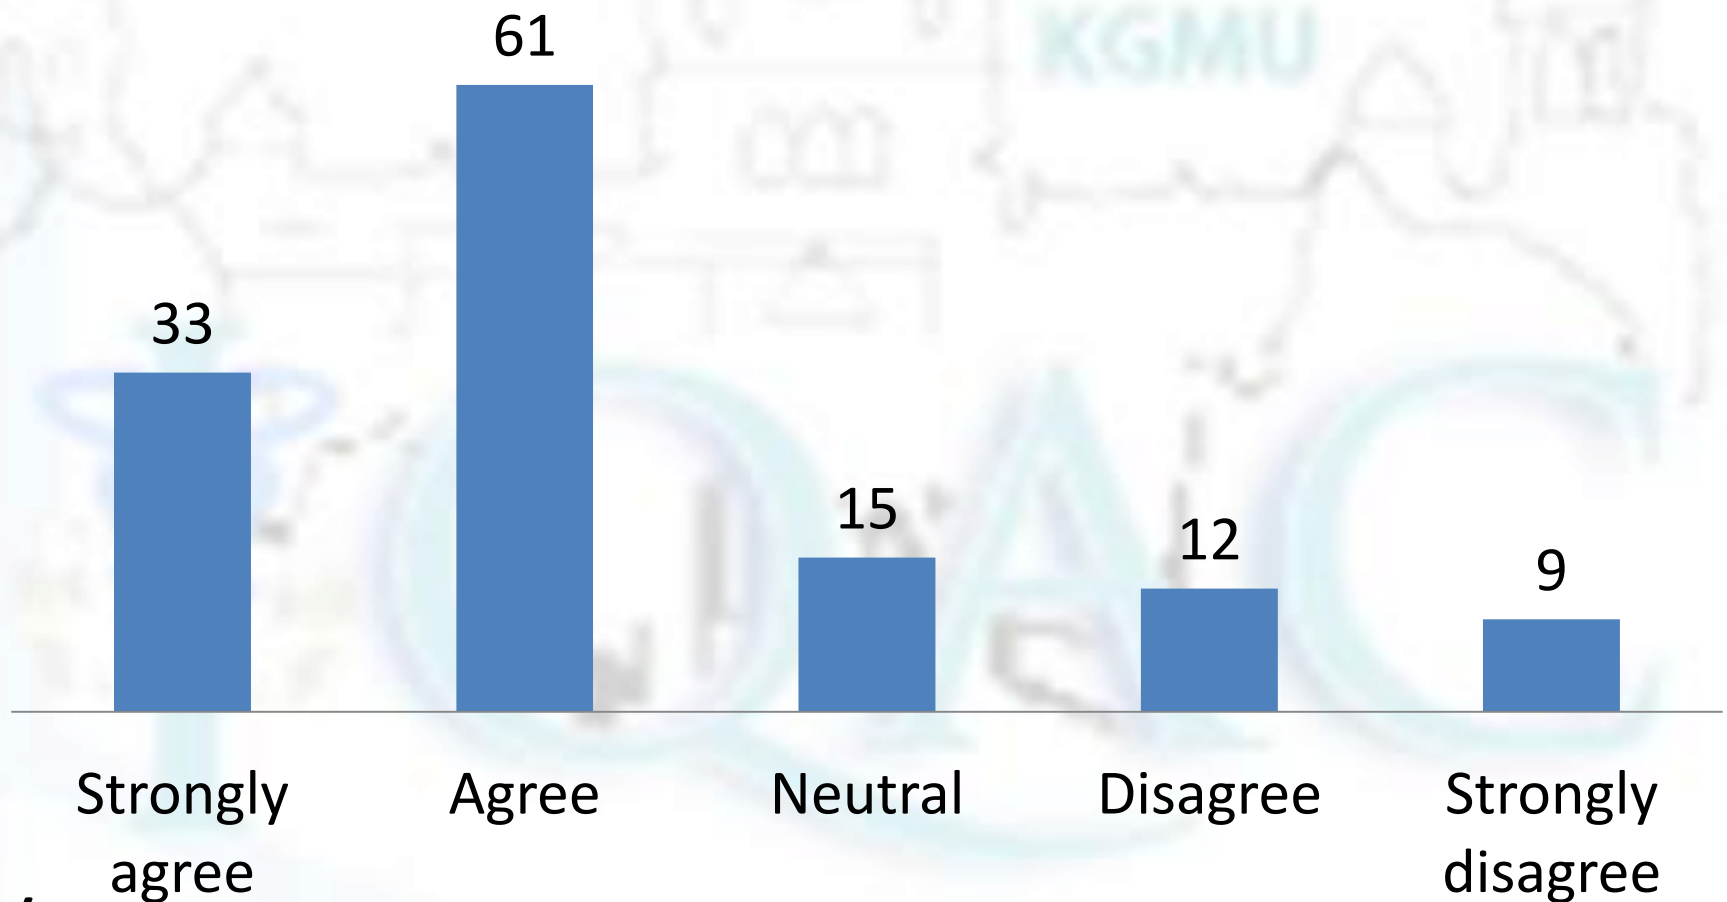

12/2021

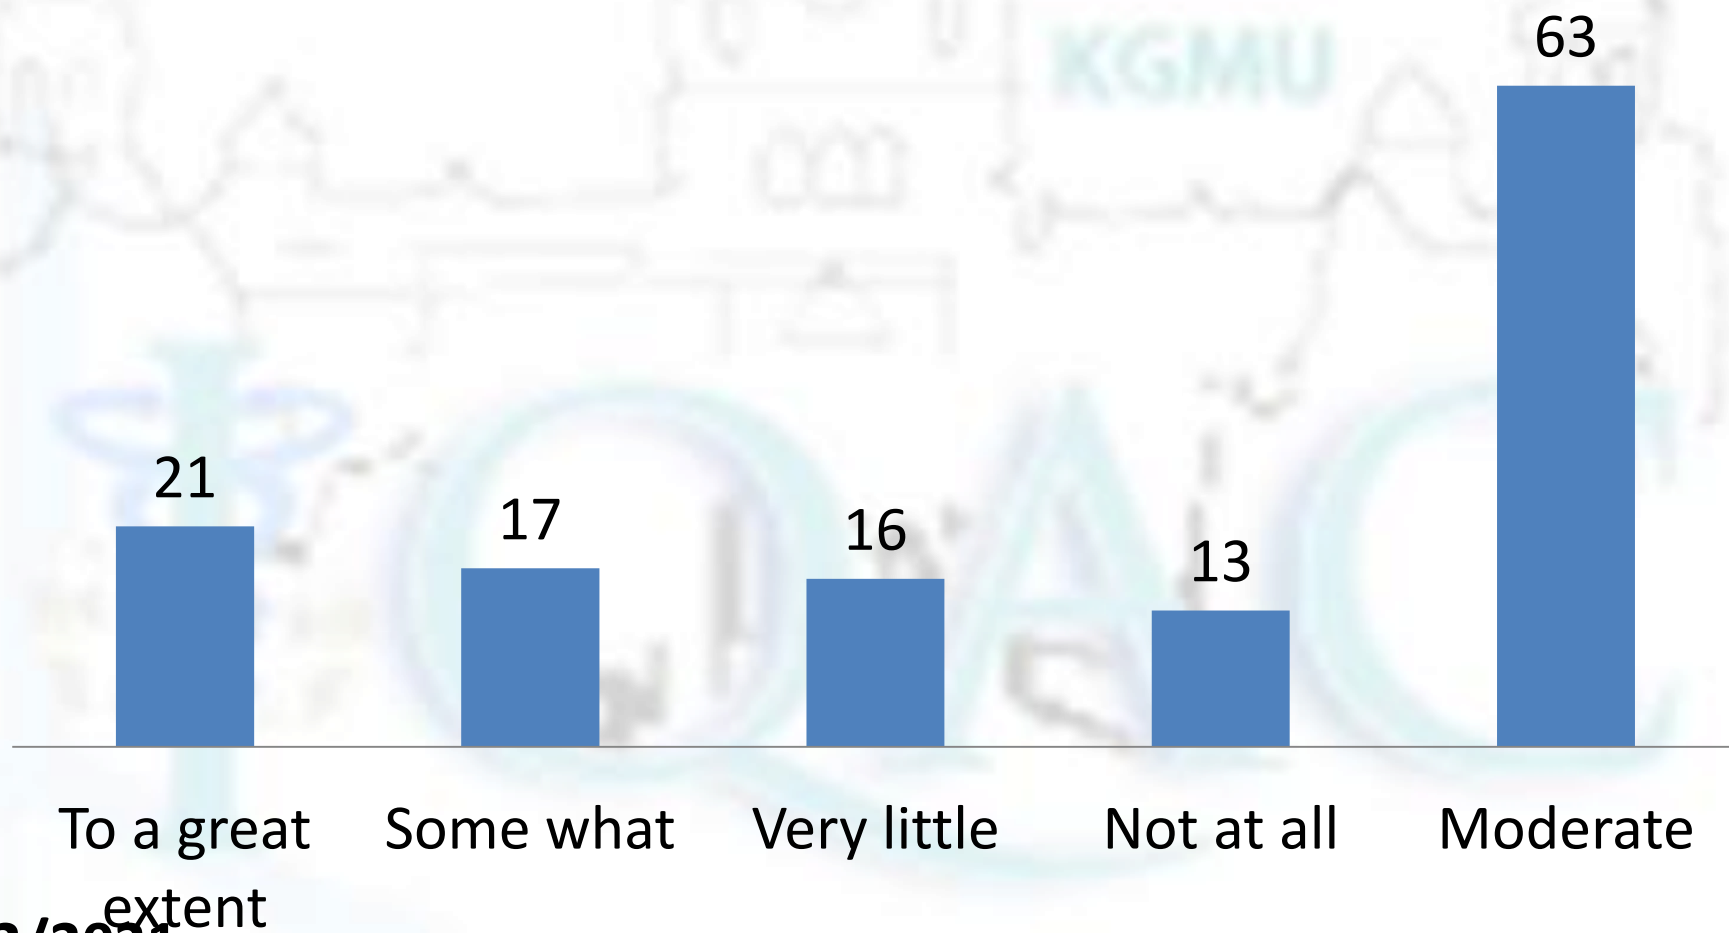

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

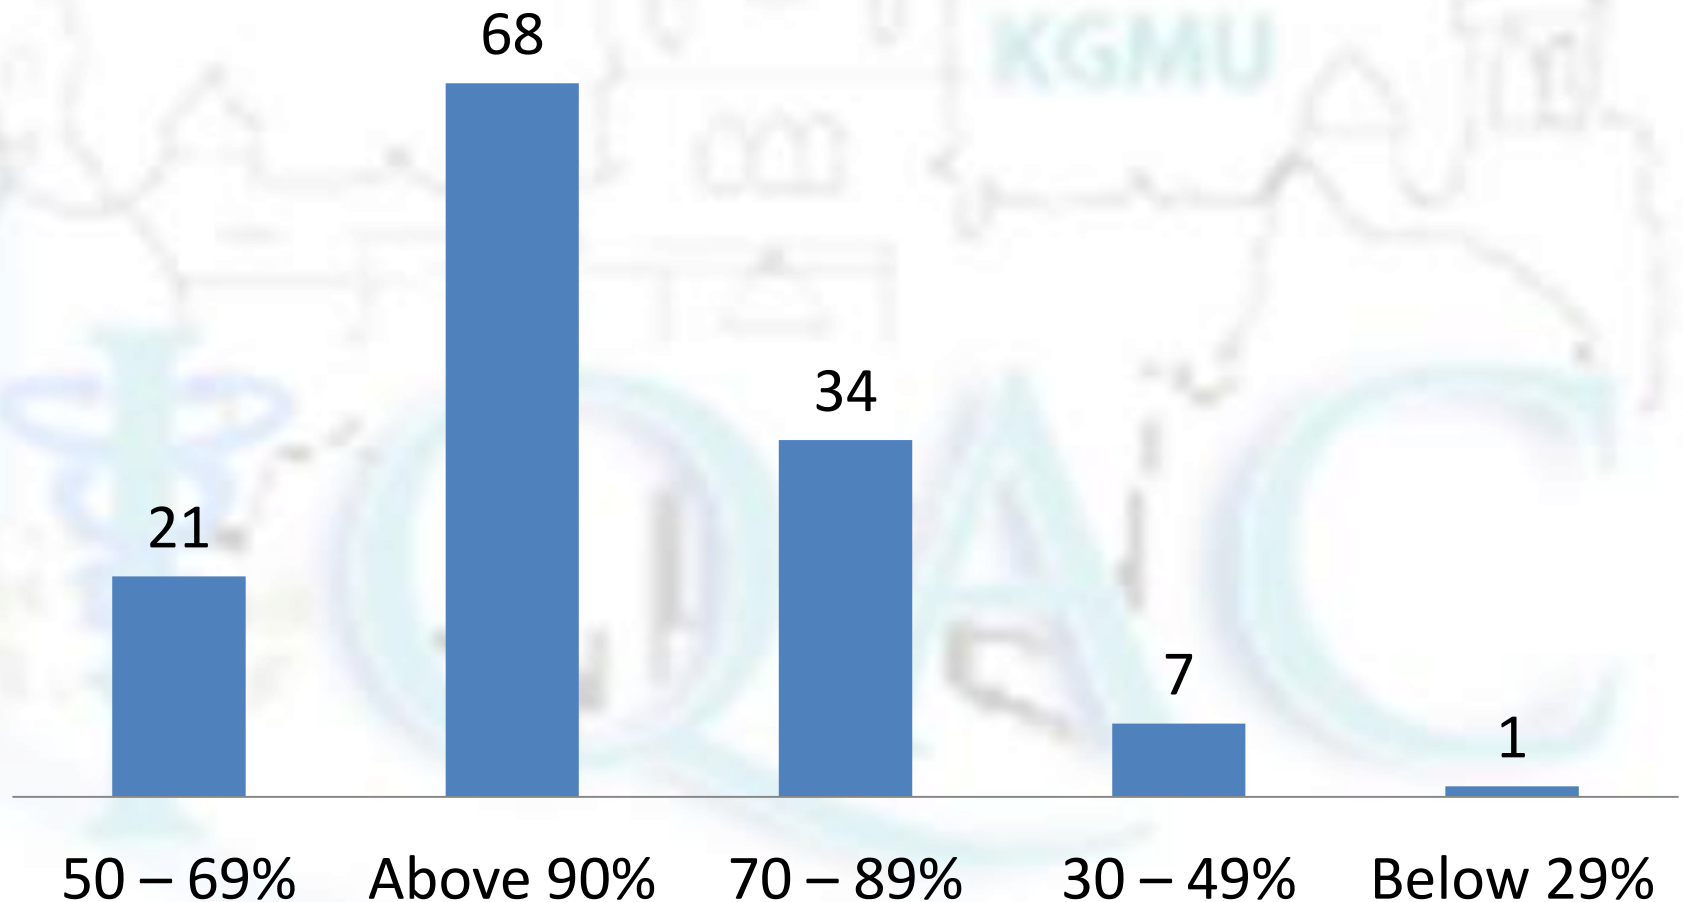

17. Teachers encourage you to participate in extracurricular activities.

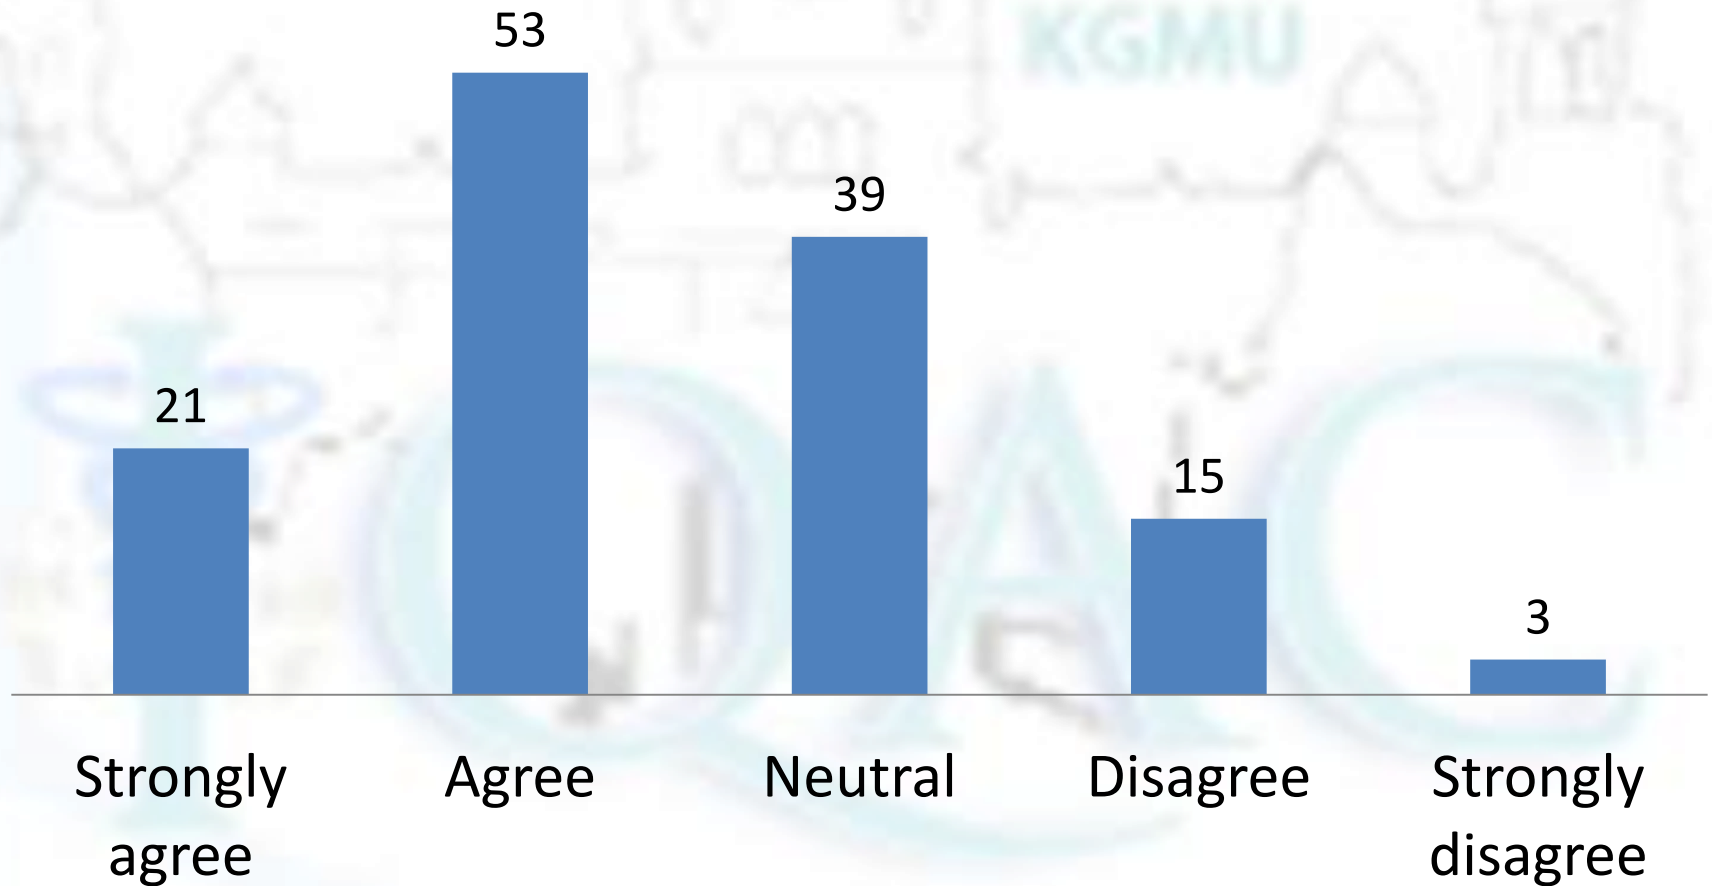

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

20. The overall quality of teaching-learning process in your institute is very good.

REMARKS

- 1) Teacher must focus on the how much the student has grasp not on the assignment.
- 2) There should be regular test after every chapter and the test result should be discussed.
- 3) Class should be not monotonous tht is reading of the ppt. is only going on , it must be interactive ."

"Teachers have to be more co operative with students ,they should teach the topic not only for the completion of course but also for that students can learn from it, Teachers have to behave softly with students,not with a rude manner"

"One specialized teacher for each subject.

Teachers should teach clinical procedures in clinical fields.

Teachers should teach in such a way that every student should grasp atleast 10-20% of the lecture. "

Nice

Provide notes and teachers should understand our problems

Clear the concept

need quality clarity

"Should also focus on practical knowledge.

"

Teachers should interact more with the students and guide them for their future and help the students grow their skills

"Should communicate to students

Should encourage students

"

"Conduct exam frequently after finishing one chapter..

Speed should slow while explaining topics.

To reduce the burden of assignment."

"

1.And also want teachers to come in our clinicals and help us learn procedures. "

Test should be done when completed the chapters

Good

Develop interest in student for the discussing topic.

Use examples to explain, tell the topic prior lecture

"•

There should be co curricular activities planned to make our exposure to the outer world and society.

Health camps should be organised so that we can participate in that.

There should be more skillful teachers n external classes in all four years"

"There should be cocurricular activities planned to make our exposure to the outer world n society.

Health camps should be organised so that we can participate in that.

There should be more skillful teachers n external classes in all four years

Tell the topic prior lecture

"Clinical assignments should be less in number

Focused on University exam questions

Teaching methods should be more conceptual not based on only ppt reading method"

"Not make unusual notestold students to make their own notes...

"

"My observation to improve the overall teaching may be

Ask the students for understanding of topic.

Arrangement of a doubt class in the last day of week.

Ask the students about their syllabus.

Try to focus at the weak students and provide some extra classes.

Try to revise the subject topics in which majority of students are not able to understand the subject.

Fix the problem of present and absent in attendance.

Students are not comfortable in hostel due to congestion in room and students have not study properly in the room. So that they are usually unable to recall the topic after the class. So that if 2 students are living in the a room then all problem become fixed.

"

"1. If teachers could come in clinical areas and teach procedures on patients, that would be very useful.

2. Frequent tests & evaluation of these tests for students to analyse their skills.

3. Make classes more interactive & intresting. "

Oral test, OSCE,

Written test doing in a every week every subject

"To conduct exam after finishing each unit

"

"Internal assessment

Flexibility in answers

Multiple AV aids"

"Assignment should be reduce a bit.

"

Teacher come in clinical and teach procedures

1.i want that my teachers should come in clinical and teach us about clinical and each procedure... 2.Improve our clinical skills with proper skills and tray management..

1-Provide ppt notes,2-understand the problem of students 3-tell the topic before teaching n rivise the topic

Three observations or suggestions to improve overall teaching and learning experience in institution are: Use better graphics and visual media to engage students well. Try to reach every student and ask for their doubts. Make teaching a two way interaction.

"1. clinical instructor's should come in wards and teach us procedures on patient.

2.teachers should conduct test after every chapter.

3.No. of assignments should be reduced"

"PROPER LEARNING

KNOWLEDGEFUL TEACHER

USE OF AV AIDS"

Teacher s should be pre prepared for explanation

Good teaching, Health status, clinical posting

"Practical knowledge

Tell about competitive exam

Focus on knowledge"

No suggestions

Good

"I want the teacher should come to the clinicals and teach the procedures

To conduct frequent exam after finishing each chapter

To fair with internal marks

"

Teachers should come on time, they should explain things with example, regular revision should be done.

Individual focus on practical

No

Focus individual practical skills of students and presence of teachers in wards is very less

Individual focus on practical

"All teachers should be taken test

All teachers should be the every lecture end of ask the question "

"1-All teacher's should take test

2-properly ask the questions in every lecture

3- every teachers should check written form of previous questions paper according to syllabus"

No suggestion

No suggestion

Focus of individual practical of all students

"1.Arrange the back up theory classes and doubt classes.

2. Arrange thae practical hours and more focus on the practical classes and skill developments.

3. Encourage the weak students to overcome the fear and improve the confidence."

"Overall good

Individual asset the students not daily but sometimes

Teachers are good "

Good

"Teacher should take more attention on weak students,
Hesitated students and classes should make very joyful...."

1. apart from focusing on the assignment submission the focus must on how much student gain.
2. Class should not be monotonous that is reading from the ppt make the boredom.
3. Teacher must focus on every student equally apart from focussing on only 2 to 3 child."

"There is no any nursing staff that can teach us clinical skills
There is no any division of work in the ward we all are blank about what we will do and what not
Some Jrs help us to learn but that is not much effective, we all need to improve our clinical skills"
Teacher should improve
Good teaching

"Maximum of teachers are not prepared before teaching any topic.
Maximum of teachers just teach topic superficially, not use allotted hours to complete topic.
Maximum of them don't use any power point to teach
"

"Name of the topic should be informed to students before teaching

Teacher should use books to teach instead ppt
After completion of one topic summarization should be done"

"Please..... Provide PPT otherwise teach via book.
Name of the topic should be in knowledge ..
all good..."

"1- Use of blackboard
2- use of experimental methods
3- give importance to all students in gaining knowledge"
"1.Use of blackboard
2.use of experimental methods
3.give importance to all students in gaining knowledge"

More familiar to students
Good

"1. Provide deep knowledge especially on practical basis.

2. Provoke more extra curricular activities. "

Good

"Go throught the topic thoughly
Teach accordingly the competition"

Good

"Blackboard method should be used in teaching learning process

Increase co-curricular activities

Internal assessment should be fairly done."

"Internal assessment should be fairly assessed.

For teaching blackboard or green board Method should also be used for explanation.

Co-curricular activities should be increased"

To give equality every student

"I think class can make interactive

And over all good.

"Need more explanation about the topics with the use of diagram and pictures

To organise more interactive sessions between teachers and students

"Teaching through slides as well as through blackboard

Extra curricular activities to enhance the quality of students

More exposure to practical knowledge"

"Use proper projectors

Use proper all resources of studies

Get proper intracted to all students"

There should be more extra curricular activities & Be fair with each and every student

Must focus on practical teaching rather than theoritcal knowledge

Revesenary class

Uses of Av aids,proper reading,proper rivisinary classes

Revesonery class

" Proper sitting arrangements

Use of Av aids

"Av aids

Sitting arrangements"

No any improvement required

No

Proper communication between the teacher and student

Discrimination with students all time except few

Questions asking

Very good

Good

Revesionary class's
