Press Release

The Department of Endocrine Surgery at KGMU, Lucknow organized its monthly meeting of the Lucknow Breast Cancer support group on the occasion of Mother's Day. The theme of today's meeting was "Celebrating Mother's Day with Breast Cancer Survivors" The Program kicked off with introduction of 25 new members of the group and resident doctors who have joined the department recently. Keeping in line with the theme, a talk delivered by Dr. Anand Mishra and Dr. Kul Ranjan Singh highlighted the increase incidence of depression, adjustment disorder and anxiety among women diagnosed with breast cancer. The incidence is even higher women with young children. The speakers also felt that care givers often forget that a patient with breast cancer is also a mother and merits robust social and psychological support apart from medical treatments. Dr. Pooja Ramakant gave tips on healthy living for breast cancer patient and survivors during summer months. Timely presentation, continuous and complete treatment followed by regular follow up was stressed upon by hosts. More than 80 persons logged in and made the celebrations a meaningful one.

Dr. Anand Mishra
(Professor & Head)
