NOSCAR® Celebrates 15 Years of Innovation

Since the formation of NOSCAR® (the Natural Orifice Surgery Consortium for Assessment and Research) in 2005, and the first NOTES meeting in Scottsdale in 2006, NOTES has evolved significantly and the circumstances surrounding NOTES are much different today.

The phenomenal growth and interest in natural orifice and advanced endolumenal procedures has continued to intrigue the leadership of NOSCAR, and for this reason, surgeons and endoscopists will convene for our 15th International NOSCAR Summit, on June 5, 2021 at the Hilton Americas-Houston. Among other exciting topics, in celebration of our 15th Anniversary, the program will feature lectures from NOSCAR's Founders, on the topic of NOSCAR: Inception to Infinity & Beyond, as well the newest advances in Transvaginal NOTES, POEM, and other topics.

NOSCAR is pleased to be part of SAGES Innovation Weekend, which will include the Next Big Thing/Surgical Disruptive Technology Summit, as well as an Advocacy Summit and a Surgical Video Data Conference. With so many new advances and innovations in the NOSCAR space, we feel this partnership will benefit all surgical innovators.
