TESTIMONIAL

Dr. Ankita qualified MS Ophthalmology in 2017. She was awarded Dr. Baljit Bhatia Memorial Gold Medal for being the best performing post graduate of the batch.

I take pride in testifying for Dr. Ankita. As a post graduate resident she showed exemplary commitment in all fields of learning, academics, extracurricular activities and any other work that was assigned to her.

She is gifted with immense compassion and patience displayed in the efforts she makes in alleviating the suffering of the patients. Her surgical skills improved exponentially during her training as a Fellow of Oculopalasty for duration of 1 year from 01.08.2019 till 31.07.2020. Subsequently her work as Assistant Professor at GSV Medical College, Kanpur & RML Institute of Medical Sciences, Lucknow added to her skills in surgery and administration.

I am sure Dr. Ankita will be an asset to any institution which she joins. I wish her great success in all her endeavours.

Office Memorandum

Subject: Offer of appointment to the post of Assistant Professor in the Department of Department of Ophthalmology at Sanjay Gandhi Postgraduate Institute of Medical Sciences, Lucknow against Advertisement No. I/27/ER/ACAD/2022-23 under Backlog vacancies

Dear Sir/Madam,

With reference to your application, the Competent Authority of the Institute is pleased to offer you a provisional appointment on the post of Assistant Professor in the Department of Ophthalmology at Sanjay Gandhi Postgraduate Institute of Medical Sciences, Lucknow.

This appointment shall be subject to the following terms and conditions:

- Your appointment is provisional and subject to medical fitness, verification of character and antecedents from the concerned authorities as per laid down procedure. This offer of Appointment is against SC Category post.
- The pay of the offered post is in the Pay Scale Pay level 17 at the stage of Rs. 101500/- per month in the Pay level range Rs 101500-167400 plus other usual allowances as per 7th Pay Commission admissible from time to time in the Institute. The offered pay scale is the corresponding revised pay scale of the advertised pay scale.
- The non practicing allowance will be admissible to Medical Posts only and to those who are having Medical qualification as per National Medical Council.
- You will be on probation for a period of two years, which is extendable at the discretion of the competent authority. During the period of probation you shall be required to put in satisfactory services in the Institute, failing which your services shall be terminated at any time without assigning any reason by giving one-month notice or one month salary from either side (namely the appointee or the appointing authority).
- Your retirement benefits will be governed by the New Pension Scheme.
- You will be provided unfurnished accommodation in the campus, if available, as per the rules of the Institute.
- Your appointment shall be governed by the Sanjay Gandhi Post Graduate Institute of Medical Sciences Act 1983, SGPGIMS Rules 1991, Institute Regulations 2011 and subsequently.

To whomsoever it may concern

It is my pleasure to provide this letter of recommendation for Dr. Pooja Sharma as she applies for faculty position.

She has been reporting Routine Histopathology, Cytopathology as well as Hematopathology cases in the department of Pathology, RMLIMS, Lucknow. She has gained experience in reporting of Onco-pathology also during a part of her tenure. She has played an active role in managing Hematology laboratory, working as a team with the seniors as well as her colleagues. Also, she has been guiding the senior and junior residents in reporting the routine as well as difficult/ suspicious cases and making them learn to report such cases carefully.

She has guided junior residents in presenting posters at various conferences and has successfully motivated one of the first-year junior resident to write a case report. Residents find her easily approachable and helpful in solving queries related to grossing and reporting.

Pooja has been handling several responsibilities with utmost competence and dedication. She has been an active participant in all the postgraduate discussions and departmental academic activities.

She is well-spoken and always respects her teachers and seniors. She collaborated well with her seniors, teammates and laboratory personnel in supervising the laboratory preparation for NABL audit and inspection and she always shows regard for others' opinions.

I highly recommend Pooja for the academic post. Please feel free to contact me with any further questions.

Dear Sir/Madam,

The Selection Committee KGMU interviewed the candidates in pursuance to notice no. 75/B-2022, advertisement no. 137/B-2022 dated 12/07/2022 for the post of Assistant Professor (UR under General Advertisement) in the Department of Pathology of this University. I have been directed to inform you that on the basis of the recommendations of the Selection Committee, you are selected for the post of Assistant Professor in the Department of Pathology from the date of your joining duty in this Department under the following terms & conditions:-

1. The salary/pay scale shall be in the Pay Band-3 "15600-39100" plus Academic Grade Pay of Rs. 8000 (Pay Level 12 as per 7th Pay Matrix) plus other allowances as admissible from time to time.
2. In accordance with the provisions contained in Section 4(1) of KGMC Act 2002, you shall have no right to do private practice or consulting practice of any kind.
3. Your service conditions will be governed by King George's Medical University, Uttar Pradesh, Act 2002 and the Statutes as applicable and working orders issued by the University.
4. You are required to join the services and enter into an agreement with the Registrar, King George's Medical University, Uttar Pradesh immediately, but no later than one month from the date of issue of this order. The format of the agreement, available in the office, must be signed by you and submitted on General Stamp Paper of Rs. 100/- along with a copy on watermark paper. Your appointment shall be subject to this affidavit.
5. Your date of birth will be determined according to the entry in High School or Matriculation Certificate or certificate of equivalent examination.
6. Your faculty (teaching) experience in earlier assignment shall not be counted in terms of seniority in this University.
7. You will be on probation for a period of one year extendable for another year or more by the competent authority.
8. Your physical fitness is to be certified by the Medical Board of King George's Medical University, U.P., Lucknow.
9. During your service in this University, you shall be required to abide by the U.P. Govt. Service Rules and other rules as applicable from time to time via which are effective in this University.
10. Your inter-se-seniority with other teachers selected by the same Selection Committee shall be as per recommendations of the Selection Committee & prevailing rules in the University.
11. Your services on the appointed post shall strictly be governed by the provisions of the Act & Statutes of this University and NMC (MCI) norms.
12. You are required to be present in the University on each working day (except for permitted holidays, vacations, and leave) throughout the day and must sign the attendance register of the Department and Biometric Attendance as per NMC norms daily at 8:00 A.M. You shall not leave the Department/University before 5:00 P.M. without prior permission from the competent authority. You shall be required to do emergency duty as per the provisions of the Act & Statutes of this University.

Ref. No. 1227/23
Date 26/12/23

It is with great pleasure that I write this recommendation letter for Dr Shreya Mahesh, as a part of her application for faculty position in the Department of Microbiology at your prestigious institute. She joined the Department of Microbiology, King George's Medical University, Lucknow in 2017 as Junior Resident. She earned her MD Microbiology degree from KGMU, Lucknow in 2020 and continued as Senior Resident till 2023. She has also successfully passed fellowship exam in infectious disease having experience of PDCC (Post-Doctoral Certificate Course) in clinical Microbiology.

Dr Shreya's approachable nature and willingness to collaborate make the working environment very enriching. She meets challenges with optimism and always keep patients' needs at the pinnacle and consistently delivers reports punctually, thus reflecting a strong work ethics. During the toughest times of Covid-19 pandemic, she worked tirelessly never shying away from her duties and demonstrated a strong sense of teamwork. She also participated in teaching, research activities and actively contributed to extracurricular activities.

Beyond her academic process, she also seamlessly integrates into various roles, which is evident through her active participation in multiple CMEs and conferences, and ensuring their success.

I have faith that she will continue to make significant contributions to any academic or professional community she becomes a part of and recommend her for any post.

Yours Sincerely,

It is with great pleasure that I write this recommendation letter for Dr Nishtha Singh as a part of her application for faculty position in the Department of Microbiology of your prestigious institute. She is a remarkable student and a true asset to our academic community. I have known her since she joined Department of Microbiology, King George's Medical University in May 2017 as Junior Resident. She earned her MD Microbiology degree from KGMU in 2020.

Throughout her tenure, Dr. Nishtha consistently demonstrated a level of commitment, passion, and intellectual curiosity that set her apart from her peers. She was hard working, sincere and honest during her period of three years in accomplishing her post graduate degree.

She has participated in National and State conferences and presented paper their of her thesis work which was awarded also. I have guided her thesis titled, "Drug Resistance Profile of Mycobacterium Tuberculosis Among Newly Diagnosed MDR-TB Cases" under my supervision. She has worked sincerely and published paper in international peer-reviewed journal with impact > 2.5. Her work and conduct during the entire period was very good. She consistently produced work of the highest calibre, showcasing a depth of understanding that is truly impressive.

She has pursued Senior Residency from the same prestigious institute from September 2020 after passing M.D. exam in first attempt till September 2023. During her residency she has work tirelessly in Covid- pandemic era doing night duty as well as emergency duties. Also participated in teaching, research activities and actively contributed to extracurricular activities.

She has successfully passed fellowship exam in infectious disease having experience of PDCC (post doctorate certification course) in clinical microbiology. She has published more than seven papers in indexed journal in national as well as international.

In conclusion, I have no doubt that Dr. Nishtha will excel in any endeavour she chooses to pursue. I am confident that she will continue to make significant contributions to any academic or professional community she becomes a part of.
I feel she is good for any faculty position in your prestigious institute.

TO WHOM IT MAY CONCERN

It is with great enthusiasm that I write this testimonial for Dr. Pratima, a talented and dedicated medical student throughout her tenure. I have known her since she joined the Department of Microbiology, King George's Medical University, Lucknow in May 2018 as Junior Resident. She earned her MD Microbiology degree from KGMU, Lucknow in 2021.

One of Dr. Pratima's most commendable qualities is her ability to grasp complex concepts with ease and apply them with a keen analytical mind. She was not just a passive learner but an active participant in the educational process, consistently challenging herself to achieve excellence.

She was always willing to assist classmates fostering a collaborative and supportive learning environment. Dr. Pratima possesses excellent communication skills, both written and verbal, and can articulate complex ideas with clarity and precision.

I wholeheartedly recommend Dr. Pratima for any professional opportunity. I am confident that she will continue to make significant contributions in the field of medicine.

Pratima

TO WHOM IT MAY CONCERN

It gives me immense pleasure to write this letter of recommendation for Prof Awanish Kumar who was my student when I joined this university as faculty. Presently I hold the chair of the department and I have seen the growth of Prof Kumar into a proficient surgeon.

He is presently as Professor in the Department of General Surgery, King George's Medical University UP Lucknow India. His area of interest is Minimal Access Surgery and Hernia Surgery. He is passionate about expanding access to advanced minimal invasive surgical techniques and improving outcomes for underserved populations. He has been awarded a CICOPS Fellowship, University of Pavia Italy 2016-17 (Minimal Access, Bariatric and Robotic Surgery) and Minimal Access and Bariatric and Metabolic Surgery - GRIPMER - Short-term fellowship - Sir Ganga Ram Hospital New Delhi).

Prof. Kumar does lot of minimal invasive work particularly hernia surgery. Prof. Kumar knows his subject and looks after these patients very well. Prof. Kumar is constantly working to improve the academic program at the undergraduate and postgraduate levels. He has worked endlessly to improve MIS practices in the department ranging from tutoring junior faculty and residents alike. He has been instrumental in developing a PDCC program in MIS, the first of its kind in the region. Providing MIS benefits to poor patients of the region has been his endeavour and he has been working all these years to turn this dream into a reality. Reducing the cost of surgical treatment by providing quality surgical care has been a constant effort of the university and he has been actively involved in this vision.

He is also a keen researcher and he has to his credit many original research papers in good impact journals. One of the areas he has chosen is ergonomics and the benefits of various techniques in complex hernia surgery. Prof. Kumar also has several international and national oral and poster presentations to his credit.

I understand Prof. Kumar has applied for the NSQIP fellowship of the American College of Surgeons and recommend his candidature for this coveted fellowship. His exposure at the conference to his experts and visits to various medical institutions of repute will be of immense benefit to him, this university and my region. I wish him all the success in life and to the best of my knowledge and belief he bears a good moral character.

Dear Program Director,

It is my pleasure to write this letter in support of Dr Shobhit Kumar for your teaching program. I have been clinical faculty at King George's Medical University for over two and half decades, last 14 years as Professor and Head of Surgery and have been involved in all the aspects of MBBS teaching and training.

I was impressed with Shobhit's exemplary performance and found him to be an attentive clinician. Shobhit demonstrated an inquisitive approach to learning about general surgery. Not only this he has strong desire to help patients, take care of their needs and would also build a rapport with the patients' family. He has a humble and unassuming character, which was well received by patients and staff alike.

I believe that Shobhit has a penchant for surgery. He would often scrub in cases and make himself useful in small yet meaningful ways. I have seen him grow as a good clinician and can see making of a good surgeon. Shobhit has always demonstrated that he is a team player. He would do any task assigned to him happily.

In addition to his academic and clinical prowess, Shobhit has demonstrated remarkable resilience and determination. Just prior to his final professional examinations, he was diagnosed with septic arthritis and had to undergo immediate surgical debridement. Despite the significant pain and physical limitations imposed on him following the intervention, Shobhit insisted on being treated the same as his peers. He completed his exams with commendable performance, showing an extraordinary level of perseverance and dedication. This experience not only highlighted his strength and resilience but also his unwavering commitment to his medical education and future career.

Dr Shobhit has always been an excellent student. He is articulate, communicates well with the patients and their families. He respects his teachers, seniors or juniors alike. He also gets well with the non-medical employees or nurses and is pretty popular. He is also a sports person and has represented at state level in swimming. He regularly contributes his bit in charitable activity like being part of village medical camp etc. All in all, he is a very strong candidate. I am sure he will prove to be an asset wherever he works or joins. He bears a good moral character. I wish him luck in his endeavours.

If you have any questions or would like to speak about him, please do not hesitate to contact me.

Best wishes,

Abhinav A. Sonkar

It is my immense pleasure to write this letter of reference for Harshit Narula. I am a senior teaching faculty at King George's Medical University and the Head of the Department of Internal Medicine. I have been his teacher and mentor which gave me ample opportunity to see his potential. He has my strongest support for your residency program.

Dr. Narula's capacity to learn rapidly, meticulous attention to detail, his curiosity, and laudable communication skills, all of these set him up for exceptional results. He was always on the look for interesting cases and under my guidance he participated in three clinical case paper presentations at the Annual conference of the American College of Physicians in 2018 and 2020. In ACPCON 2018, his presentation on "Resistance to Tenofovir in patient treated for HBV infection" was even awarded as the best clinical vignette in the medical student and resident category!

Dr. Narula shined during his clerkship given his impeccable work ethic, excellent history and examination skills, and profound knowledge base. He always treated the patients with utmost respect and care and gave them ample time to negate any worries. He made sophisticated differential diagnoses and performed procedures with ease and dexterity.

Our institution boasts to have the highest bed capacity in India with over 4500 beds. The emergence of Covid-19 had put a tremendous workload on the department. Dr. Narula went above and beyond his responsibilities and duty hours as an Intern and worked tirelessly in the Covid wards. The faculty and the residents were very impressed with his accountability, dedication, and reliability.

To summarize, Dr. Narula has my highest level of recommendation for your residency program. I can confidently say that in my two decades of academic career, Dr. Narula is among the finest students I have ever worked with. I have watched him learn and grow as a future physician and he has won my heart with his commitment to medicine. Please do not hesitate to contact me if you require any further information.

Ref. No. 1654/ Med 22

Date 26/8/22

Dear Program Director,

I am writing this letter for Dr. Esha Vaid after she expressed a strong interest in pursuing higher medical education in the USA. I have practiced Medicine for 32 years and have overseen the education of MBBS students for five years as the Head of the Department of Medicine at King George's Medical University. The classroom and clinical teachings in Internal Medicine commenced in the second professional year, so the students of KGMU get early exposure to the discipline. I have known Esha for four years and have access to all her evaluations.

During the second year, we primarily focus on teaching the approach to taking a history of simple topics such as fever, pain, anemia, jaundice, diarrhea, and performing the general examination. Starting the third and fourth professional year, students pro-actively participate in outpatient and inpatient patient care under the indirect supervision of the faculty of medicine. Students see up to 15-20 patients per day during outpatient rotations and admit 4-5 patients per week during inpatient rotations.

I was impressed when I saw her adopt a non-linear method to study the vast literature and master clinical skills during the initial years. She reviewed the cases retrospectively, from the questions asked to arrive at the differential and provisional diagnosis to questioning the role of each investigation and medication. The residents were genuinely impressed by her efforts to learn effectively and invited her to assist in procedures like lumbar puncture, sacral tap, and pleural tap, among others. Her clinical skills consistently improved with time.

During didactics, Esha gave numerous oral presentations. Her ability to encourage student participation and ask clinically relevant questions is admirable. During the fourth year, when we discuss a case of a patient who presented with the symptoms of a stroke, she was asked about the pathophysiology of stroke with foot amputation. This topic was never discussed with the class; therefore, I was pleasantly surprised when she not only explained but also demonstrated the methods. The same year, Esha admitted the case of a 23-year-old patient with a long-standing complaint of shortness of breath. Bronchodilator therapy provided some relief, but the symptoms were progressive. He faced severe physical and financial limitations. After performing H&P, Esha remarked that the anteroposterior diameter of his chest was also increased. Based on his 10-15 packyears smoking history and clinical findings of pedal edema, laterally displaced apex beat, and raised JVP, she proposed evaluating the patient for sleep apnea as a risk factor for hypoxemia leading to cor pulmonale. The patient was diagnosed with the same and started on an appropriate management plan.

Esha also has a knack for seeking out opportunities to grow and learn. She never hesitated in approaching the faculty members for the same. She has participated in many conference poster presentations. She worked with Prof. Rajni Gupta from the Department of Anesthesiology to organize American Heart Association (AHA) certified BLS and ACLS sessions for medical

Internal Medicine Spitznerd Evaluative Letter for Residency Program (IM SET)

Applicant Name: Pragati Basera

AAMC ID: 15595581

Institution: King George's Medical University

Primary Evaluator Name: Dr. Virendra Atam

Secondary Evaluator Name(s): Dr. Shyam Chand Chaudhary

Primary Evaluator contact information: v_atam@yahoo.com, +91 98398 06676

Primary Evaluator Information: As the head of the department of medicine, I had the privilege of closely observing Pragati's performance during didactics and patient care in the wards. Under my supervision, Pragati successfully completed 8-weekly internal medicine rotations in each of her second, third, and fourth professional years.

Evaluation Details: This letter incorporates student evaluations gathered from a diverse range of settings, including classroom, inpatient facilities, and emergency setting. The evaluations featured in this letter have been collected from esteemed faculty members, residents, and valuable feedback provided by patients themselves.

Description of key Internal Medicine rotations: During this rotation, medical students familiarize themselves with a diverse array of medical conditions. They actively engage in daily rounds in the inpatient wards, where they present clinical cases to the faculty. Moreover, they attend didactic lecture series to augment their knowledge. In the medical emergency department, the students actively participate in urgent patient care and under supervision, carry out minor procedures.

Core Medicine Clerkship:

Duration & Setting: Internal Medicine Core Clerkship consists of an 8-week rotation in the second year, a 6-week rotation in the third year, and another 8-week rotation in the fourth year. The inpatient and emergency rotations take place at G.M. & Associated Hospitals, King George's Medical University, Lucknow, and Trauma Centre, King George's Medical University, Lucknow.

Student roles & responsibilities:

As part of their clinical training, students are expected to actively participate in clinics during morning and evening rounds on a daily basis. Each day, it is required that they present a preferably new case, recording a thorough history and conducting physical examination, formulating a differential diagnosis, suggesting appropriate treatment options, engaging in case discussions, and delivering a comprehensive oral presentation during rounds. Students are strongly encouraged to actively contribute to case discussions for all cases and document daily progress notes in the designated case sheets assigned to them. At the conclusion of the rotation, students are required to successfully pass the written clinical examination to demonstrate their proficiency and understanding of the material covered during the rotation.

students during her fourth year. Although still a beginner, she is actively working on her skills as a researcher by participating in research projects with other students.

Esha has consistently worked on her communication skills and kept improving year after year. However, she is also good at handling challenging patient interactions. In the third year, during her first outpatient rotation, she was assigned the case of a 67-year-old man presenting with shortness of breath and fatigue. When he learned that Esha was a medical student, he refused to be seen by her and demanded a 'doctor.' She politely explained that the medical students perform the initial clinical assessment of the patients and then present the case to the attending physician. She politely requested him to share what was bothering him so they could work on it together. The patient admitted that he did not trust the clinical judgment of a student; Esha stepped back respectfully and invited a resident to take charge, thereby preventing any further escalation. Although discouraged, Esha took the rejection in her stride and moved on to the next patient.

Overall, I have found Esha to be creative, focused, and thoughtful. She is a positive and enthusiastic student. I have faith in her clinical acumen. She has been consistent in her academic performance and ranked amongst the top 8.5% of students in a batch of 258 during the Final Professional Part II examination, where we performed a thorough clinical and theoretical assessment of students with a heavy focus on the Objective Structured Clinical Examination (OSCE). She is currently at the level of a 2nd-year Internal Medicine resident and is consistently improving. I wholeheartedly recommend Esha for your Internal Medicine Residency Program and believe she would be an asset to your residency. She is one of the best students that I have ever worked with in my entire career. I sincerely believe that she will be a valuable resource to advocate for Internal Medicine in the future and will be a future leader. Don't hesitate to contact me to discuss her candidature or any questions you may have. Thank you very much.

Regards,

Prof. Virendra Atam, MD

Internal Medicine Structured Evaluative Letter for Residency Program (IM-SEL)

Applicant Name: Shivam Singh

AAMC ID: 15595582

Institution: King George's Medical University

Primary Evaluator Name: Dr. Virendra Atam

Secondary Evaluator Name(s): Dr. Shyam Chand Chaudhary

Primary Evaluator contact information: v.atam@yahoo.com, +91 98398 06676

Primary Evaluator Information: As the head of the department of medicine, I had the privilege of closely observing Shivam's performance during didactics and patient care in the wards. Under my supervision, Shivam successfully completed 8-week internal medicine rotations in each of his second, third, and fourth professional years.

Evaluation Details: This letter incorporates student evaluations gathered from a diverse range of settings, including class/rooms, inpatient facilities, and emergency setting. The evaluations featured in this letter have been collected from esteemed faculty members, residents, and valuable feedback provided by patients themselves.

Description of key Internal Medicine rotations: During this rotation, medical students familiarize themselves with a diverse array of medical conditions. They actively engage in daily rounds on the inpatient wards, where they present clinical cases to the faculty. Moreover, they attend didactic lecture series to augment their knowledge. In the medical emergency department, the students actively participate in urgent patient care and under supervision, carry out minor procedures.

Core Medicine Clerkship:

Duration & Setting: Internal Medicine Core Clerkship consists of an 8-week rotation in the second year, a 6-week rotation in the third year, and another 8-week rotation in the fourth year. The inpatient and emergency rotations take place at G.M. & Associated Hospitals, King George's Medical University, Lucknow, and Trauma Centre, King George's Medical University, Lucknow.

Student roles & responsibilities: As part of their clinical training, students are expected to actively participate in clinics during morning and evening rounds on a daily basis. Each day, it is required that they present a preferably new case, recording a thorough history and conducting physical examination, formulating a differential diagnosis, suggesting appropriate treatment options, engaging in case discussions, and delivering a comprehensive oral presentation during rounds. Students are strongly encouraged to actively contribute to case discussions for all cases and documents daily progress notes in the designated case sheets assigned to them. At the conclusion of the rotation, students are required to successfully pass a comprehensive clinical examination to demonstrate their proficiency and understanding of the cases covered during the rotation.

☒ Always ☐ Usually ☐ Sometimes ☐ Rarely ☐ Not assessed

Written Comments:

Pragati's enthusiasm for Internal Medicine sets her apart as a standout candidate. Throughout her rotations, she actively participated in case presentations and demonstrated a strong commitment to patient care, by diligently following up with her patients, ensuring their well-being. Pragati's desire for knowledge was evident as she sought guidance from our residents, displaying a genuine eagerness to enhance her clinical skills. Her consistent attendance at evening sessions and active participation in interpreting X-rays, ECGs, PFTs, and performing procedures, showcased her curiosity and dedication to learning.

In addition to her exemplary clinical work, Pragati achieved an impressive 11th rank out of 259 students in the final examination for Internal Medicine, showcasing her proficiency in the field. Her passion for research shone through her collaborative efforts with residents, resulting in multiple authored case reports. Notably, she authored a significant case series on Mucormycosis during her postings amidst the COVID-19 pandemic.

What truly impressed me was Pragati's remarkable compassion for patients and their families. Her communication skills allowed her to effectively connect with individuals from diverse cultural and socioeconomic backgrounds. Pragati's excellent teamwork qualities further contributed to her success as she worked efficiently within our medical team, earning the admiration of her peers.

Based on my extensive experience with students over the past 20 years, I confidently rank Pragati within the top 5% in terms of her outstanding work ethic and thirst for knowledge. In conclusion, I wholeheartedly endorse Pragati as an excellent candidate for a residency position in Internal Medicine.

APPENDIX A. Statement of Letter Preparation

I, Dr Virendra Atam, am the author of this Internal Medicine-Structured Evaluative Letter (IM-SEL). I hereby acknowledge that this letter has been written in accordance with the revised 2021 AAMC Guidelines for the Department of Medicine Structured Evaluative Letter.

The content of this letter is based on the following data: This letter incorporates student evaluations gathered from a diverse range of settings, including classrooms, inpatient facilities, and emergency setting. The evaluations featured in this letter have been collected from esteemed faculty members, residents, and valuable feedback provided by patients themselves.

It is to be noted that this letter has been requested by, Pragati Basera, for the purpose of residency application. Pragati has waived her right to review the contents of this letter before it is submitted. Please feel free to contact me if any further information or clarification is required.

Sincerely,
Dr. Virendra Atam

Written Comments:

Dear Residency Program Director,

It is with immense pleasure that I give this recommendation for Dr. Aditya Anand to support his application for residency in Internal Medicine. I write this in my professional capacity as the Professor and Head of the Department of Internal Medicine, King George's Medical University (KGMU), Lucknow, India where I have been a faculty member for last 20 years. I have been his clinical teacher for 4.5 years. I gladly say that he has managed to capture my attention in the crowd of 350 students enrolled in MBBS batch 2016.

Dr. Aditya Anand has always demonstrated a deep passion for Internal Medicine. He has consistently ranked among the top 20 students of his batch. His dedication towards medicine is evident by the strong character he demonstrates even in toughest of times. In March 2022, he contracted Acute Kidney Injury (AKI) in the thick of his final professional examinations. He was admitted in the Intensive Care Unit (ICU) here at KGMU - undergoing dialysis. His written exams were over but the practical exams were still ahead of him. We suggested foregoing the exams and instead appear for the supplementary examinations to be held six months later for second-timers. But he refused to do so as he was not to leave his medical academics, and managed to ace the practical exams held in wards, on a weekend. The faculty here at Medicine was quite astonished with the commitment he showed. He then picked up COVID-19 during the same period. Luckily, he survived all the hardships, and a month after his discharge, he reported on the other side of the table to his COVID-19 ward duty, still healthy, but on time, all the same.

During Dr. Aditya Anand's Internal Medicine rotation, he demonstrated a remarkable aptitude for the subject, and not just his knowledge and on-the-spot thinking, but also in a way that he communicated with the patients. He is kind, understanding, empathetic and diligent while he attends his patients. During his rotations he interacted with patients from a variety of regions of India, cultures and socio-economic class, with all of whom, he developed a rapport. He is a very good listener, he is able to pick up the subtle changes in their presentation. He is a very good listener, he is able to pick up the subtle changes in their presentation. He is a very good listener, he is able to pick up the subtle changes in their presentation.

He has always been quite observant which he has illustrated quite some time while picking up signs of patients. Whether it's the way a patient breathes before showing a crucial detail on the subtle changes in their presentation. He is a very good listener, he is able to pick up the subtle changes in their presentation. He is a very good listener, he is able to pick up the subtle changes in their presentation.

In conclusion, I have no doubt that the overall knowledge, professionalism, dedication, empathy towards his patients and sincerity that Dr. Aditya Anand possesses would make him an excellent candidate for your Internal Medicine program. Please do not hesitate to contact me if you need any further information.

Written Comments:

Dr. Rajesh K. Prasad, Director

I am writing to strongly recommend Aditya Anand for your Internal Medicine residency program. As the head of the Department of Internal Medicine at King George's Medical University for the past 5 years, I have had the pleasure of working with Aditya and can confidently attest to his outstanding qualities as a medical student.

Aditya is an extremely diligent and hardworking individual, with a strong passion for medicine. Throughout his time at our institution, he has demonstrated exceptional academic performance, consistently ranking in the top 5% of his class. In addition, he has consistently shown an excellent bedside manner and communication skills with patients, making him a true asset to any healthcare team.

What sets Aditya apart from his peers is his exceptional ability to integrate complex medical knowledge with practical, patient-centered care. He has a keen ability to analyze complex data and utilize

Registrar
King George Medical University
Lucknow

Signer ID: KVLJR8AF15...

approaches to develop effective treatment plans. He is also highly skilled at communicating complex medical information to patients and families in a way that is easy to understand and digest.

Furthermore, Aditya is an excellent team player who works collaboratively with other healthcare professionals. He is highly respected by his peers, colleagues, paramedical staff and faculty members for his positive attitude, strong work ethic, and excellent clinical judgment. He is also highly adaptable and works effectively in high-pressure situations and rapidly changing clinical environments. He demonstrated this ability by being an integral part of the workforce during the COVID-19 and Malaria crisis in the country during his time at our institution.

In summary, I highly recommend Aditya Anand for your Internal Medicine residency program without hesitation. He stands easily amongst the top 10% of students I have worked with during my career. He possesses all the qualities that are essential for a successful physician - intelligence, compassion, dedication, and a commitment to excellence. I have no doubt that he will thrive in your program and make significant contributions to the field of medicine.

Please do not hesitate to contact me if you require any further information or clarification.

Sincerely,

Dr. Vinod Kumar Anand

Head of Department of Internal Medicine
King George's Medical University

APPENDICES

APPENDIX A: Statements of Letter Preparation

This letter of evaluation was prepared upon request of the student in support of an application to your residency program. The student has waived their right to review this letter. The letter was written in accordance with the revised 2021 AAMC Guidelines for Department of Medicine Structured Evaluative Letters, composed by the student's primary advisor. The content of the letter is derived from clinical evaluations and documents from faculty and residents from the student's Internal Medicine rotations (including the Internal Medicine Core Clerkship and Internal Medicine Sub-Internship or sub-specialty electives if available), their performance on the Internal Medicine Ward and written examinations, and personal observations and assessment of the student.

Written Comments:

Shivam's academic journey has been truly outstanding, culminating in a remarkable achievement of graduating as the second-ranked student among a class of 250 students. Moreover, he attained the highest rank in the course of Internal Medicine in his graduating class, by securing the highest grades in the final theory and practical examinations. This exceptional accomplishment earned him the prestigious honour of being awarded the 'Gold Medal' in Internal Medicine.

During his clinical rotations, Shivam consistently demonstrated unwavering dedication to patient care. As I closely observed his interactions, I was consistently impressed by his thorough patient histories and genuine concern for the well-being of his patients. Shivam's excellent communication skills proved to be effective as he effortlessly established rapport with patients from diverse socio-economic and cultural backgrounds.

What truly sets Shivam apart is his relentless pursuit of self-improvement. Continuously seeking out constructive feedback, he actively worked on strengthening his weaker areas. It was not uncommon to find him utilising additional learning opportunities in the Medicine ward during evening hours or engaging with residents and fellow technicians to further enhance his clinical skills.

Overall, Shivam has earned the designation of an "Outstanding" candidate for residency in Internal Medicine. This distinction is reserved for exceptional students who consistently excel in the field of Internal Medicine. In my 20 years of experience as an Internal Medicine attending, he ranks in the top 3% of students I have mentored and worked with.

APPENDIX A. Statement of Letter Preparation
