**Proposed titles:**

- Medical Research Bulletin: A Spirit of the Georgian’s

**Why this research bulletin?**

- Worldwide, a doctor’s educational basis is their undergraduate medical education. Approximately 90,825 MBBS seats are available at 605 Indian medical institutions, according to website updates from the National Medical Commission (NMC) as of 7th March 2022. (National Medical Commission, 2022). After finishing their MBBS course, the majority of MBBS students intend to continue higher study (post-graduation and super-specialization). Many MBBS students choose to study overseas to receive in-depth training in a particular discipline. Other recent medical school grads have a propensity towards academic medicine and research. All of these tendencies and interests call for a research-oriented mindset because all of these medical areas depend heavily on research. However, in the majority of the nation’s medical institutions, medical graduates lack research understanding and direction. This research bulletin will encourage the undergraduate as well as postgraduate medical / dental / paramedical students to
  - Develop / Enhance their understanding about research
  - Develop / Enhance the scientific writing skills
  - Develop / Enhance the skills to critically review a scientific article
  - Facilitate the editorial skills
  - Develop leadership qualities in the field of medical research

Additionally, this process will facilitate mentoring to the students, who are inclined towards research.

This research bulletin will be published online, every four monthly. It will be freely available. There will not be any submission or publication fees.

**What this research bulletin will contain?**
This research bulletin will contain small articles related to latest developments in medical science, impactful research works that have significant practice implications. Additionally, the bulletin will also include articles about researchers / Alumni of KGMU, who contributed significantly to medical teaching and research.

**Types of articles**

<table>
<thead>
<tr>
<th>Type of article</th>
<th>Structure of the article</th>
<th>Word limits</th>
<th>References</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Commentary</td>
<td>Abstract not required. It should be in reference to published impactful research in an indexed reputed journal of the field. It should contain practice implications of the research in 3 to 5 bullet points.</td>
<td>500</td>
<td>5</td>
</tr>
<tr>
<td>2. Innovations</td>
<td>Abstract not required. It should be any innovation in medical science with some practice implications. It should have reasonable scientific basis.</td>
<td>700</td>
<td>5</td>
</tr>
<tr>
<td>3. Georgian Biopic</td>
<td>Abstract not required. It is about a brief biography of a Georgian Alumni, who contributed significantly to teaching &amp; research.</td>
<td>500</td>
<td>None</td>
</tr>
</tbody>
</table>

Reference style: NLM (National Library of Medicine) style of reference

Authorship criteria:
A student will be a lead author of the article. The student writing the
article, need to have a faculty mentor (form any department of King George’s Medical University, Lucknow, U.P). The faculty mentor will be the last (second / Third) author and corresponding author.

An article may have up to two student authors and one faculty author.

If, two students contribute to the article, student with more contribution will be the lead author, followed by the second student as author. The faculty member will be the third author.

Always, the faculty mentor will be the corresponding author.

Submission Procedure:
All submission should be mailed to the Editor-in Chief through E-mail.
Submission mail: (TO BE GENERATED)
Submission document: The manuscript to be submitted as a single document containing:
1. Covering Letter
2. Title page (mentioning the article type, Author’s details, Corresponding author)
3. Manuscript
   Manuscript should be typed in TIMES NEW ROMAN font style with 12 font size, with double line spacing

Similarity index of more than 10% will not be considered.

**Frequency of publication:**

This research bulletin will be published at every four months and will be readily available at the KGMU website for public access.

*The first issue of the bulletin will be launched during the CONVOCATION DAY of King George’s Medical University, this year and will be inaugurated by the Hon’ble Governor, Uttar Pradesh.*
The journey from idea to publication

1. Idea & concept
2. Identifying the topic
3. Identifying the mentor
4. Identifying a research article
5. Article reading
6. Writing the manuscript
7. Verification of the manuscript by the mentor
8. Submission of the manuscript by the faculty mentor
9. Screening by the Editorial Assistants and Editor in Chief
10. Review by the Field editors
11. Technical check by the student representatives
12. Revision (if needed)
13. Acceptance
14. Publication
