Reg. No. A2223

Manufacturer reserves the right to change the Part Number without prior notice.
Note: A certificate in the following form should be provided before procuring the goods from a single source.

1. The indented goods are manufactured by M/s Invitrogen (Thermo Fisher Scientific Group)
2. No other make or model is acceptable for the following reasons:
   - The kit is customized according to our study requirements and is specifically designed to be compatible with Luminex™ platform (available in IITR) for detecting the kit contains premixed antibody.
3. Concurrence of finance wing to the proposal vide.
   - Coated magnetic beads which makes it most economical; facilitates automation, decrease hands-on-time and increase precision.
4. Approval of the competent authority vide "Multiplex system is the most cost-effective way rather than separate cytokine detection thus we want to procure this kit.
