Proposal: Biometric Swing Barrier Turnstile System

1. Introduction

NeoFerra Solutions is pleased to present the proposal for the Biometric Swing Barrier Turnstile System tailored for secure, seamless, and controlled access management. This solution is designed to meet institutional requirements for high reliability, modern authentication capability, and long-term operational efficiency.

2. Product Overview

The Biometric Swing Barrier (Single Lane) is an advanced access control solution suitable for universities, corporate premises, research facilities, and government institutions. The system supports multi-authentication options and is engineered for consistent, durable performance.

3. Key Features

- **Authentication Modes:** Facial Recognition, RFID, QR Code
- **Motor:** High-durability DC Brushless Motor
- **Design:** Modular layout, LED indicators, scratch-resistant glass panels
- **Durability:** IPX4-rated enclosure suitable for indoor and sheltered outdoor usage
- **Operating Temperature:** Reliable performance from -30°C to 70°C
