Date 04/08/2023

To
The Hon'ble Vice Chancellor
KGMU, Lucknow

Subject: Regarding shifting of Vascular Surgery Department OPD to 4th floor of CVTS building with the facility of registration of patients on the ground floor of CVTS department

Respected Sir,

The OPD of Vascular Surgery Department is currently running in the pathology room (POCT) of CVTS Department's OPD on Monday, Thursday & Saturday for which the department of pathology has previously expressed their objection (copy attached).

Yesterday we got a letter from the Medical Superintendent, KGMU (letter no 297/2023, dated: 02/08/2023- copy attached), that the OPD of Thoracic Surgery Department will run on the 4th floor of the CVTS building on Tuesday, Wednesday and Friday with the facility of registration on the ground floor of CVTS OPD's IT cell.

This is to let you know that both Thoracic Surgery Department and Vascular Surgery Department have their office, ICU, OT and ward on the 4th floor with a common OPD facility on the 4th floor.

Since the Thoracic Surgery Department has been allotted OPD on the 4th floor of the CVTS building on Tuesday, Wednesday and Friday the left over 3 days (ie Monday, Thursday & Saturday) can be similarly allotted to Vascular Surgery Department on the 4th floor of CVTS building with the facility of registration on the ground floor of CVTS OPD's IT cell. This will lead to proper utilization of OPD space for the benefit of patients and also as per objections of pathology department earlier regarding their laboratory space. With this our pathology services can be expanded which was also the wish from the department of Pathology.

Thanking you in anticipation

Kind Regards

Dr. Vivek Tewarson
