Annexure 3

Note: A certificate in the following form should be provided before procuring the goods from a single source.

The intended **Simple step kit for competitive inhibition enzyme immunoassay technique for the invtro quantitative measurement of retinol in buffy coat blood & human primary cells derived from human biosamples** is manufactured by Abcam Plc. and is a proprietary item of Abcam Plc. NuLife Consultants & Distributors (Pvt) Ltd New Delhi is the authorized official partner responsible for sales and supply in India.

1) New Delhi is the authorized from Abcam Plc. responsible for the sales and supply in India.
2) No other kit is acceptable for the following reasons:

   The kit should be based on immunoassay technique for the invasive quantitative measurement of retinol in buffy coat blood & human primary cells derived from human bio samples and should have been used to study nutritional status of children. Retinol is a circulating protein that binds to and transport retinol (Vitamin A) in serum. The Ret complex further interacts with prealbumin which increases its half-life in circulation. Ret is produced by hepatocytes and adipocytes.

3) Concurrences of finance wing to the proposal vide: NA

4) Approval of the competent authority vide: NA
